IT COSTS NO MORE  
Let the Advocate follow you on your summer vacation.  
TEN CENTS A WEEK.

VOLUME 50—NUMBER 59.

NEWARK, OHIO, MONDAY EVENING, AUGUST 6, 1906.

## NEW YORK TO BOSTON TRIP IN A BALLOON

OHIO BOY AND DR. J. P. THOMAS MAKING LANDING FOR BREAKFAST.  
UP IN AIR A THOUSAND FEET.

Much of Trip Made in Dense Fog. No Mishap Occurred During the Night.

Noank, Conn., Aug. 6.—Dr. Julian P. Thomas of New York, accompanied by Roy Knabenshue, the Toledo aeronaut, who started from New York last night in the big Nirvana balloon, hoping to break the American record for height and distance covered, landed this morning a mile and a half north of this place on the main road between here and New London. They stopped only long enough to inquire their whereabouts and take some breakfast, after which they ascended again and proceeded on their way. They hope to reach Boston before completing the trip.

The landing was almost directly over the home of David Main. The Main family were just getting up when they were startled by shouts out of doors, and, going out, heard voices in the fog clouds overhead. They were frightened until they observed the great balloon descending. The aeronauts made a nice landing and throwing out their anchor, came to a halt near a fence and secured the balloon to the gate post, filling the car with stones from the roadside to keep it down.

Owen H. Williams, superintendent of the Gorton town farm, soon came to call and offered his services. They hailed a passing milkman and purchased some milk, and then ate breakfast with the Main family.

They stated that the balloon had been up to a great height and that much of the trip had been through a fog. They said they had followed the sound nearly all the way from New York. At 6:30 o'clock they boarded the car, took up the anchor, and throwing out the ballast, again ascended. They said they expected to go up 1000 feet to escape the fog and then proceeded on their way to Boston. The wind here was very light and blowing toward the north-east. The fog had been so thick that nothing could be seen of them after the ascent. Dr. Thomas said that they met with no mishaps on the trip here and were well satisfied with their journey, except that they were seriously handicapped by the fog which hung thickly all along the coast. If the wind continues they should make their way across Rhode Island toward Boston without mishap.

## FOURTH VICTIM

Robert Pearce Dies of Injuries Inflicted by Dempster at Washington on July 29th.

Washington, Pa., Aug. 6.—Robert Edward Pearce, 3, who was shot by the negro, Elmer Dempster, Sunday night, July 29, died of hemorrhages caused by the bullet wound. The child was wounded at the time Dempster killed Mrs. Pearce and two children. Dempster, who is in jail here, when told of the death of his fourth victim manifested no interest in the case.

## BRYAN IN VENICE

Party Had Luncheon on Sunday with Mr. White, the United States Ambassador.

Venice, Aug. 6.—William J. Bryan, Mrs. Bryan, Miss Grace Bryan, Colonel Moses C. Wetmore of St. Louis and Mr. and Mrs. M. F. Dunlap and their daughter of Jacksonville, Ill., spent Sunday here sightseeing. They were interested especially in the work of restoring the Campanile at St. Mark's. The party had luncheon with Mr. White, the United States ambassador.

## LIGHTNING

Struck Church as Sunday School Was Dismissed—Several Children Hurt at Decatur.

Decatur, Ill., Aug. 6.—Lightning struck the Walnut Grove church as the Sunday school was dismissed. Several children were hurt. Carl Sutton was probably fatally burned. Earl Emerson's finger was burned off and Earl Byers had a toe burned off. Ruth Diss was burned about the face and head. Half a dozen others were shocked.

Illinois Republican primaries elected Senator Culbertson for reelection. Congressmen Lorimer and Mann of Chicago renominated.

## SCORES ARE PROSTRATED AND SOME ARE DYING FROM INTENSE HEAT IN NEW YORK—THOUSANDS SLEPT ON ROOFS, FIRE ESCAPES AND IN PARKS SUNDAY NIGHT.

HEAT TIME IN CENTRAL PARK.

New York, Aug. 6.—This city is boiling in a torrid wave. People are dead from the heat and scores are prostrated. There is great distress and suffering among the poor. Last night was the severest experienced during the present heated term, and will add heavily, physicians declare, to the list of mortality among infants as well as the aged. One man was driven mad, and private physicians were called into homes of comparative comfort to administer to hundreds of persons stricken by the overwhelming heat. Physicians and ambulances were busy responding to the calls for heat victims who fell exhausted in the streets or were taken from their homes in a state of collapse.

The police required no special order from headquarters last night to grant the suffering people of the East Side the privilege of resting on the cooling turf in the city parks and upon the wharves along the city water fronts.

Thousands slept upon the roofs of their homes. Fire escapes, too, were converted into sleeping places by the heat afflicted. At the various beaches no restraint was placed on the desire of the people to rest on the sands. At midnight a remarkable exodus from Manhattan was observed. Thousands of people, many of them women with infants in their arms, boarded the trolley cars and ferryboats and went to the beaches.

New York, Aug. 6.—New York endured one of the hottest days of the summer Sunday, with not as many

NIGHT ON RIVERSIDE DRIVE.

prostrations as expected, owing to the fact that it was a day of rest, and the hundreds of thousands who crowd the business districts and sweatshops on week days did not have to work. Beginning early in the morning, the combined forces of heat and humidity sent up the mercury steadily until at noon they had it at the eighty-seventh degree on the pavement. Not satisfied with that, however, they continued hard at work and put the record up to 89 before 3 o'clock. At that mark they held it until 6 p. m.

It is estimated that more than a million persons went out of town, and as a result every seaside resort within 100 miles of New York, was jammed with men and women in a frantic effort to cool off. Coney Island had more than 500,000 visitors, and at Brighton, Rockaway and other nearby places bathing suits were in demand at a dollar an

COOL BREEZE ON THE TROLLEY.

DINNER ON THE HOTEL ROOF GARDEN.

ON THE SEAWALL AT THE BATTERY.

hour for rental. Every train and boat leaving the city in the morning was packed with sweltering humanity. The streets by midday were like those of a deserted city. Even the churches were empty and the parks were crowded. Last night they were thrown open to the public, and the people were allowed to sleep there. The suffering on the East Side in the crowded districts was intense.

Cincinnati, Ohio, Aug. 6.—The heat wave which has compassed the country has not caused extreme suffering in Cincinnati. For several days the temperature has registered around 90, but has been accompanied by breezes.

Indianapolis, Aug. 6.—The official thermometer today registered 74. There have been no prostrations. The humidity is heavy.

St. Louis, Aug. 6.—At 9 o'clock today the mercury had reached 86 and the weather bureau estimated that 90 would be reached before noon. Two deaths and half a dozen prostrations resulted from the heat Sunday. There is no sign of a let-up in the hot wave.

## CHICAGO BANK WITH \$3,000,000 DEPOSITS CLOSED

POLICE DECLINE TO CONFIRM A REPORT THAT WARRANT HAS BEEN ISSUED.

CLOSING CAUSES EXCITEMENT.

Institution is located in Section of the City Largely Peopled With Foreigners.

(Continued.)

Chicago, Aug. 6.—The Milwaukee Avenue State bank, with \$3,000,000 deposits, was closed this morning by state bank examiner Jones for examination. The institution is located in a section of the city largely peopled with foreigners and the closing caused excitement and almost a riot among the depositors. Police officers were sent to preserve order. The examiner said he found the bank without an executive officer present or in the city. The police declined to confirm the report that a warrant has been issued in connection with the closing.

Manila, Aug. 6.—(Continued.)

## STANDARD OIL PROBE BEGINS AT CHICAGO

SPECIAL FEDERAL GRAND JURY STARTS WORK THERE ON MONDAY.

JURORS FROM SMALL TOWNS.

Investigation of Secret Rebates from Various Railroads—Great Care Is Taken.

Chicago, Aug. 6.—The government campaign against the Standard Oil company began before a special federal grand jury today. The ramifications of the system whereby it is charged the trust has for years engaged secret rebates from various railroads will be investigated. Another federal grand jury is to meet next Monday and relate matters in connection with the Standard's monopoly will be submitted to it also. For some days government attorneys have been busy preparing the case and since the grand juries have been summoned every precaution has been taken to see that the members are not approached. With but three exceptions the men come from small towns in northern Illinois and some sections have been busy learning their railroads. The matters to be investigated include rebates of the Standard Oil company from the Illinois and Michigan railroads. The prosecution is based on Comptroller Underhill's report.

## OREGON LEGISLATOR MUST GO TO PRISON

Wealthy Man Is Fined \$2,000 and Given Year in Pen—Lawyer Also Convicted.

Portland, Ore., Aug. 6.—Willard N. Jones, member of the Oregon legislature of 1904, a wealthy contractor and timber dealer, has been sentenced by Judge William H. Hunt to the United States prison for one year for his participation in the federal bribery case of McNally, Idaho, and to pay a fine of \$2,000. Jones was convicted of conspiracy to defraud the government.

Thaddeus Stevens, a well known Portland lawyer, who was convicted and sentenced to the penitentiary for his participation in the McNally case, will also be sentenced to the penitentiary for one year and fined \$2,000.

## CHICAGO BANK WITH \$3,000,000 DEPOSITS CLOSED

Manila, Aug. 6.—(Continued.)

## SHIP STRUCK DEADLY REEF 400 DROWNED

EMIGRANTS ON THEIR WAY TO SOUTH AMERICA FIND WATERY GRAVES.

CAPTAIN TAKES ALL BLAME.

As He Attempted Dangerous Passage to Save Time—Victims Italians and Spaniards.

Cartagena, Spain, Aug. 6.—The death list in the wreck of the Italian steamship Sirio, off Hormigas island will probably exceed 400. The coast near the wreck and for miles around is littered with wreckage, showing the completeness of the destruction of the steamer. Everything possible is being done for the survivors, but many are in a wretched condition.

Cartagena, Spain, Aug. 6.—The Italian steamship Sirio, which sailed from Genoa Aug. 2 for South America with 800 passengers on board, was wrecked off Hormigas island and 300 emigrants were drowned, most of them Italians and Spaniards.

Those rescued from the vessel are at Cape Palos in a pitiable condition, being without food or clothing.

The disaster occurred while the steamer was threading a difficult passage through the Hormigas group, where the Bajor Hormigas reef is a continual menace to navigation. The vessel began to settle rapidly immediately after she struck, and a terrible scene of confusion and panic ensued on board. Fishermen along the coast sought to render every assistance in their power, and sent out boats which brought many survivors ashore. Most of the officers and crew of the Sirio are among the saved.

After the wreck the captain of the steamer committed suicide.

Before he committed suicide the captain declared the steamer had 645 passengers on board and that her crew numbered 127 men. He attributed the wreck to his own imprudence. The Sirio had 570 passengers when leaving Genoa, but additional Spanish passengers were taken on board at Barcelona, where the vessel touched a few hours before the disaster.

The official account confirms the report that the wreck was due to the captain's imprudence in venturing too close to the Hormigas shoals in order to save time.

It is said that the panic on board caused more loss of life than the sea itself. In the midst of this panic the captain and officers of the Sirio endeavored in vain to restrain the people, restore a semblance of order and organize a system of life saving. This was not accomplished, for the vessel suddenly either broke in half or glided off the rocks and foundered in deep water. The captain purposefully sank with his ship.

Additional sadness is added to the catastrophe owing to the fact that a number of fishermen who were conducting rescuing operations were drowned in consequence of the overturning of a boat.

The bishop of San Pedro, Brazil, was among those lost, and it is reported that another bishop is among the missing. The remainder of the passengers and the officers and crew got away in the ship's boats or were rescued by boats sent to them from the shore. A number of fishermen who made attempts at rescue were drowned.

The survivors went into camp on the main square of the town at Cape Palos, where harrowing scenes were enacted as the stricken families anxiously sought members among the rescued. A mother who lost her three children went insane. The physician of the Sirio gave up his wife and child as lost, but they were finally brought in by one of the rescuing boats, and the scene as this family was reunited was most affecting. One of the boats sent out by the fishermen brought in 24 passengers.

The survivors lost everything and are without money, food or clothing. The maritime authorities of Cartagena dispatched a tug to the scene carrying relief supplies. The buildings of a circus and the poorhouses are being used as temporary quarters for the survivors.

The Sirio struck a rocky reef known as Bajos Hormigas, and sank soon after, stern first. Hormigas island lies about two and a half miles to the eastward of Cape Palos. The Sirio was owned by the Navigazione Italiana of Genoa.

J. R. McDOWELL DEAD.

Cincinnati, Ohio, Aug. 6.—Major Joseph R. McDowell, business manager of the Cincinnati and personal representative in Cincinnati of John R. Mullan, died this morning.

## RUSSIAN REVOLT WILL NOT WIN

Some Workmen Refuse to Join Cause Against Czar—Disorders in the Interior.

St. Petersburg, Aug. 6.—It is not yet time to assert with any degree of certainty what will be the outcome of the general strike ordered as a revolt against the dissolution of the duma and the recrudescence of bureaucratic rule.

Telegrams from the interior throw little light on the manner in which the country may be expected to respond to the call for a strike. There is no cessation in the number of robberies and murders in the interior.

The general strike, which affected close to 70,000 men in St. Petersburg, met with only slight response in other sections of Russia, and probably will be decided with an adverse expression of public opinion. The lack of union among leaders of the proletariat organizations is playing against the success of the movement.

The first break in the ranks of the St. Petersburg strikers occurred when the printers decided to return to work. Employees of several street-car lines and river ferries resumed work.

Railroad men, on whom the success of the entire movement depends, are still working full time. The leaders of the railroad organizations are hesitating about issuing a call for a tie-up. They fear being deserted and discredited by their materialistic followers, who are no more responsive to the avowed pretext of this strike, sympathy with the mutineers of Sveaborg, Cronstadt and Revel, than they were to the similar reasons given for the abortive strike of last November. The railroad men have been intimidated by the recent order making strikes affecting communication penal offenses. The severe punishment was enacted with direct reference to general strikes.

The council of workmen's deputies, which met secretly at Terioki, Finland, was so incensed at the timidity displayed by railroad men that it decided to resort if necessary to blowing up bridges and destruction of road beds, etc., to bring transportation service to a standstill. Representatives of all the revolutionary parties and emissaries from Moscow, Kieff, Riga, Odessa and other cities were present at the meeting. The telegraphers thus far were appealed to in vain.

**Russian Editor's Pipe Dream.**  
St. Petersburg, Aug. 6.—The Novoye Vremya, which is the only newspaper appearing except in dodger form, devoted a large portion of its space to an article prophesying war between Japan and the United States and predicting a sure and speedy Japanese victory, the seizure of the Philippines and Hawaii and the occupation of California by Japanese.

**Refuse to Take Freight.**  
Bromberg, Prussia, Aug. 6.—German railroad authorities announce that they will not accept freight for points on the line of the Russian Vistula railroad, as the latter refused to forward it.

## DOG'S GOLD TOOTH

Scranton Man Declares His Pup is Proud of Crown That Dentist Put On.

Wilkesbarre, Pa., Aug. 6.—Dr. Fred S. Birchard of Scranton, has a dog with a solid gold tooth, and the dog knows it and is proud of it. A few days ago, noticing that one of its front teeth was much decayed, Dr. Birchard took the dog to a dentist, who suggested that the best thing to do was to insert a gold tooth.

"I suppose it is," said Dr. Birchard, "but how shall I get it done?"

"I'll do it now," said the dentist, who is a great lover of animals, and he did. The operation took a little more than half an hour, and at that time the intelligent dog lay back in his master's arms, submitting with an occasional whine of pain, just as if it was accustomed to being in a dentist's chair.

Now the dog sports about with its fine gold tooth, a curiosity for all the small boys of the community.

About 150,000 persons die every year of tuberculosis in France.

## Jell-O Ice Cream Powder

2 Packages make a Gallon Cost 25 Cents

Can be made in 10 minutes, saving time and money, and it's always good. No cooking, no waiting, no fussing. Four kinds: Vanilla, Chocolate, Strawberry and Unflavored. If you grow impatient, send for one and 25c to us and two packages and our illustrated recipe book will be mailed you. The General Food Co., Le Roy, N. Y.

## THE MODERN TORPEDO.

Its Wonderful Mechanism and How It is Operated.

The principle of the torpedo is the placing of a very large charge of high explosive in a steel case fairly alive with mechanism and so ingenious that the missile fired from a tube with a small charge of cordite or gunpowder will automatically direct itself to a given target and there explode. The Whitehead torpedo of today is a steel cigar or automatic porpoise shaped weapon or projectile from twelve to seventeen feet long and eighteen inches in diameter at its widest. When ready for firing even a small one will weigh over half a ton. They are delivered in five sections, which contain upward of 2,000 pieces of machinery.

The wet gun cotton in the "war head" is inserted in slabs, each with a hole in its center to receive the core of dry gun cotton directly connected with the detonating primer, which contains fulminate of mercury and a percussion cap. In front of the primer is screwed the water "nose"—a very sensitive nose—which operates automatically when the weapon strikes and sets off the whole charge.

Behind the war head comes the chamber containing the compressed air that drives this singular projectile through the water. Into this chamber is pumped the air at a pressure of 5,000 pounds to the square inch. And this escaping through the valve leading to the little engines provides the motive power. Next comes the mechanism which automatically regulates the depth of the torpedo during its run. This ingenious apparatus has been kept a great secret and sold in turn to the various nations of the world. Not far from the tail of the torpedo are placed the driving engines.

There is also a controlling valve, which can be arranged so as to close automatically after the weapon has run a certain distance, thus obviating a futile explosion in the event of the torpedo missing its target. At the end of the tail comes the rudder, which keeps the torpedo straight. But the most remarkable piece of mechanism is the gyroscopic, like a child's top. It is set automatically by the release of a spring a moment or two after the torpedo is shot from its tube. It is the duty of this little device to correct the torpedo's course if it deviates in the slightest degree from its instructions.

France leads the world with her torpedo flotillas. Great Britain possesses about 110 torpedo boats of the first class, 114 "destroyers," 110 second class boats and 29 submarines built or building. Every nation is giving great attention to its torpedo boats. Even China has 44 of the first class and 50 second class torpedo craft.—Exchange.

### Passing of the Period.

"What has happened to our old friend the period?" remarked a man who observes little things and has a habit of reading advertisements. "It seems to have dropped out of use almost completely in the setting up of advertisements lately. And to any one who pays attention to punctuation the absence of the full stop puzzles him a good deal.

"Here's a book ad., for instance. Reading it as it is punctuated, it gives you reason to believe that in addition to the author saying several complimentary things about his own story he asks you if you've read it, advises you to and tells you what its price is. Of course I know they want you to buy their books, but I never saw one doing this in an advertisement before.

"Printers tell me it's the latest style in composition to omit the period. If it is it's the silliest fashion I've observed in a long while, and I'll bet that when that particular author sees that ad. he'll think so too."—New York Press.

### Kongo Punishment.

A missionary recently returned from the region of upper Kongo, in Africa, says that he saw there a curious platform thirty feet high erected in front of the head sentry's house. The latter informed the missionary that it was a large stage from which to shoot leopards, but natives told him that it was a torture platform. Unfortunates who did not bring in sufficient quantities of rubber were first beaten, sometimes almost to death, and then taken to the top of the structure and compelled to gaze at the sun until relatives brought the necessary amount of rubber as redemption.

### Sarasate, Who Never Practices.

Sarasate, the great violinist, is in one respect very fortunate among musicians. He knows nothing whatever of the drudgery and weariness of practicing. Most well known singers and great executants go on practicing with more or less regularity all their lives. Not so Pablo Sarasate. He takes up his violin for his own amusement, but his fluency and facility are such that he can dispense with the income daily task of playing to keep his hand in.

### Tainted Money.

The really unwholesome money, our grossy paper currency, tainted with a tangible and offensively pungent taint, has long been a fertile subject for the pens of public sanitarians and hygienists. The carriage of infectious diseases by these omnipresent and ubiquitous microbes, the dollar bill, is far more than a possibility. New York Globe.

### The American Jew.

Says Jacob H. Schiff of New York, the eminent Jewish philanthropist, "It is my conviction that the crossing of the different types of Jew, particularly of the Russian and the German Jew, now beginning to go forward in this country, is destined in the course of the next fifty years to produce the finest type of all times the American Jew."

## FAY TEMPLETON BECOMES A BRIDE; STARTS AT ONCE ON HONEYMOON.

MISS FAY TEMPLETON  
PHOTO BY OTTO GRONOW

Announcement was made last Saturday of the marriage of Fay Templeton, an actress, to William Patterson of Pittsburgh. Immediately after the wedding the couple departed on a bridal tour.

Fay Templeton is probably the best known musical comedy star in the country. She has been identified with leading comic operas and extravaganzas for the last twenty years, and her last appearance, in "Forty-five Minutes from Broadway," was a decided triumph.

Managers have always been ready to engage her, as she has invariably brought with her a streak of "good luck" for the play in which she appears. It is her boast that no play in which she ever had a part has been a failure.

Although she denies that she has ever been married before, there were in 1892 and 1896 two persistent reports of her wedding to Howell Osborne, and after his death to William S. Brown, an Englishman. She was a beneficiary under Osborne's will to the extent of \$100,000.

Some of the comedies in which Miss Templeton played a leading part were "The Gay Lord Quex," "The Girl and the Judge," "The Runaways" and several of the burlesques and farces put on by the firm of Weber & Fields.

### Mexico Tranquil.

Mexico City, Aug. 6.—Ambassador Thompson of the United States received replies from United States consuls and consular agents throughout the republic, the consensus of which is that there is no ground for alarm on the part of Americans or foreigners. The consuls report tranquillity at all points save some labor agitation at railway centers.

### Posses Eluded.

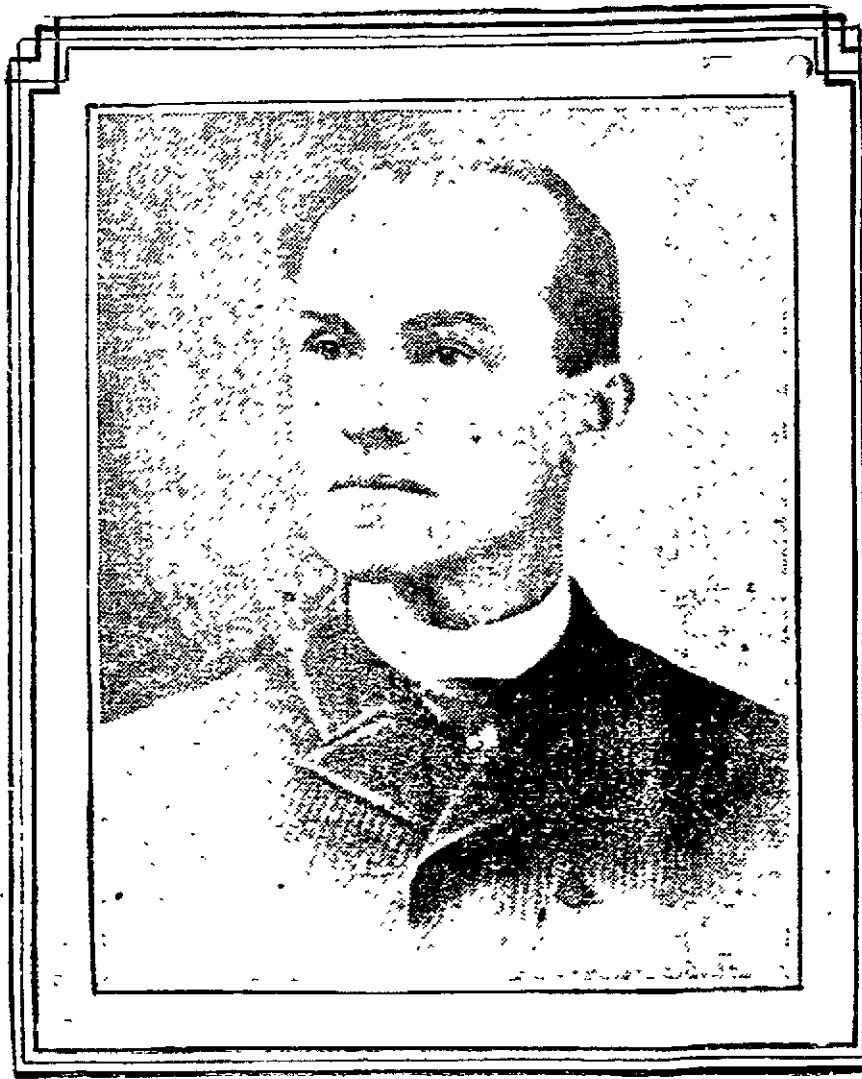

Madisonville, Ky., Aug. 6.—The posses which went out to find the negro assailant of Myrtle Fugate returned without having found him.

### Residence Robbed and Burned.

Bryan, O., Aug. 6.—The residence of Daniel C. Baxter, retired banker of Bryan, was burned with all contents. The loss will reach \$10,000, with about \$7,000 insurance. Mr. Baxter was away from home. A bag of silverware found near the premises would indicate the house was looted before it took fire. It was also stated that kerosene was spread on the inside of the rooms.

Billiards was brought into fashion by Louis XIV. of France in the 17th century, because his doctor ordered him to take exercise after his meals.

## POLITICS SEEN IN M'CARREN SUIT.

P.H. M'CARREN

New York, Aug. 6.—Hints, and hints of sensational developments, there is much back of the recent developments dropped.

brought against him by Mrs. M. A. McCarren, a woman who is asserted, Dixon of which the public knows nothing, is the fact that while the alleged facts, Senator Patrick H. McCarren, in the case were known more fully a thorough counsel, applied to Judge White of the Supreme Court of Rhode Island, for an order compelling Mrs. Dixon to show cause why the judgment against him, taken by the court, should not be vacated. The order was sought by Mrs. Dixon, who, it is said, had been awarded, concluded to submit the matter to a Sheriff's jury, so that damages could be assessed. The action of Senator McCarren, and a series of proceedings, it is the intention of the Rhode Island Senator to bring to the attention of the public.

## WHY BRITONS WIN OUR GIRLS

Because Englishmen Are More Devoted, Says Harmsworth.

### AMERICAN MEN ALL TOO BUSY

Noted English Editor Declares They "Rush" Their Courtships and Neglect Real Devotion—Tells His Reasons Why Englishmen Make the Better Husbands.

The reason why so many American girls choose English husbands is that the Englishman is more devoted and knows how to treat her better than does the American, was the explanation recently given at the Hotel St. Regis, in New York, by Alfred Harmsworth, Lord Northcliffe, who arrived on the Kaiser Wilhelm der Grosse, says the New York American.

"The most interesting thing about America is her women—at least that is what Englishmen think, and we ought to know, for we have in London the very flower of American womanhood—women of your country who have married our men and who never come over to this side unless it may be to make 'mamma' a brief visit or to see how the States have grown," said the great English editor.

"The American girl likes our men better than she does the American. It's because he knows better how to treat her.

"I have studied the American girl, not a little bit, and it is after much careful observation that I have come to the conclusion that our men make better husbands for the American girl than your own men. The American woman likes him better. What the American woman likes—what any woman likes—is to be adored—to be made much of—to be worshipped, in truth—and that is where the Englishman has the advantage over the American. He adores, worships, lavishes his affection on his wife.

"The American calls us a stupid lot. He loves to tell the American girl those stories, referring to the slow going ways of the average Englishman. The Englishman may be stupid—I don't think so—but if he is his stupidity is of a sort that appeals to the American girl so much that she marries him. Let the American man deny that! I can prove what I say by statistics—actual figures.

"Why, do you know, it has got to be so that when an American girl marries an American the public is truly grateful. The newspapers devote columns to the event. They speak of her common sense and of her—I was about to say heroism, but I will modify that—of her fine love of home and things of the sort. That in itself proves my statement. The American girl who through choice and of her own volition marries the American is so singularly rare that she needs be publicly commended for her noble act!"

"You say these conditions exist, Lord Northcliffe. Why is it so?" was asked. "For many reasons. I have told you one—that the Englishman worships his wife. Then while the American is busy making money for his wife the Englishman is busy making love to hers. In the last analysis a woman prefers a man who makes love to the one who can make money. The American woman is indeed fortunate. She has the advantage of having fathers who make money, and she marries the Englishman who makes love to her.

"Your men, I take it, are too much in a hurry in their love affairs. They 'rush' a girl. That word is strictly American in the sense I have just used it and very aptly of the methods your men pursue. The Englishman never rushes in anything, particularly not in matters that affect his heart. A woman is flattered by the time he takes in his love-making. To the American girl used to the other sort of man it is refreshing and has in it a subtle flattery. I dare say, that eventually wins her over. Your men 'rush' the poor creature to death, and all sentiment goes a-glittering.

"American men may make fairly good lovers before marriage; they may shower their fiancées with American Beauties, they may stuff sweets down their pretty throats, they may provide all sorts of entertainment, but it is so palpably lavished upon the girl that she becomes surfeited with the purely material demonstrations of the man's affection.

"He forgets to tell her that he loves her; in his businesslike way he recalls the day when he honored her with the avowal of his affection and he looks with pride upon the four carat solitaire or the band of brilliant which gleam upon her third right hand finger, and like that famous 'ad' he thinks 'ruff'.

"But with us it is different. A man is more devoted after he is married than before, and while he does not buy roses by the ton, he does not forget the bunch of violets or the roadside buttercup. It might be of which he has heard his wife express herself as fond on some happy occasion in the past—an occasion of which she may have forgotten until reminded of it through the thoughtfulness and sentiment of her husband.

"These are some of the reasons why our men make American women better husbands. Your women are filled with sentiment; they must have flattery, must have affection, and when the American gets to taking too much for granted the 'stupid' Englishman comes in and dies off with the Yankee bride."

When asked if they had any paper trust in England, he replied: "We don't have any trust at all. No trusts. John Bull is so stupid that he won't have any trusts. Say that. Say those very words."

## TROUBLE FEARED

Communication is Interrupted for 48 Hours Between Odessa and Sebastopol.

Odessa, Aug. 6.—Telegraphic communication between here and Sebastopol was interrupted 48 hours. Governor General Kaulbars has not returned from Sebastopol. Flashlight signals were exchanged between the roof of the commandant's residence here and a torpedo-boat destroyer a few miles at sea. Thereupon the destroyer started at full speed toward the Crimea. There is a certain apprehension of impending events. For the first time in two weeks Cossacks appeared in town, forming double guards at the residences of the governor, the prefects and the commandants and other public buildings. Persistent reports are in circulation concerning conditions at the garrison. The French consul was instructed by his government in case of necessity to give refuge to all fugitives, irrespective of nationality.

NEWARK BUSINESS COLLEGE.

Day and Night School. Instruction unexcelled, courses of study up to date, accommodations unequalled, methods unsurpassed. Leaving block. 10-2-dtf S. L. EENEY, Prin.

Warning is a Fake.

Mexico City, Aug. 6.—The impartial charges that the handbills circulated recently warning Americans to leave the country before Sept. 16 were circulated by an unknown American, who went from station to station distributing and posting the pretended proclamation. The impartial also asserts that certain railway companies in Texas and California have taken part in promoting the circulation of false and sensational canards.

Swindling Schemes.

Mexico City, Aug. 6.—Three Americans, Fred Jones, Jerome Turner and W. J. Wilson, were arrested and sent to Belem prison, charged with swindling American tourists. It is alleged they lured victims to the bell tower of a cathedral, induced them to gamble, and when the latter would protest a bogus detective would come on the scene and frighten the losers into silence.

Local Option Election.

Massillon, O., Aug. 6.—In the local option election held under the Beal law in Sugar Creek township, this county, the drys were victorious by a majority of 38. The vote stood 108 for the wets and 196 for the drys.

## Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers. They filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or uneasy heart beats, and makes one feel as though they had heart trouble, because the heart is overworking in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases in all druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

The \$400,000 surplus in the hands of the Republican national committee, of which Postmaster George B. Cortelyou is chairman, gives rise not so much to the question as to how it happens that a surplus has been permitted by Republicans as it does to the question as to where the committee got the total amount raised, of which the surplus is but a portion. Did it not all come from corporations? And is not the expectation of more corporation corruption funds the reason why the Republican congressmen refused to pass the bill prohibiting these trust organizations from contributing campaign funds?

#### THE PARTISAN WAY.

The partisan way of running public institutions souly for the benefit of bosses and factions and ward heelers has again been adopted in Ohio, since the death of Governor Pattison. An item, such as the following, taken from the columns of the Columbus Citizen of August 2, could only be possible when George B. Cox and Charles Dick are in the saddle:

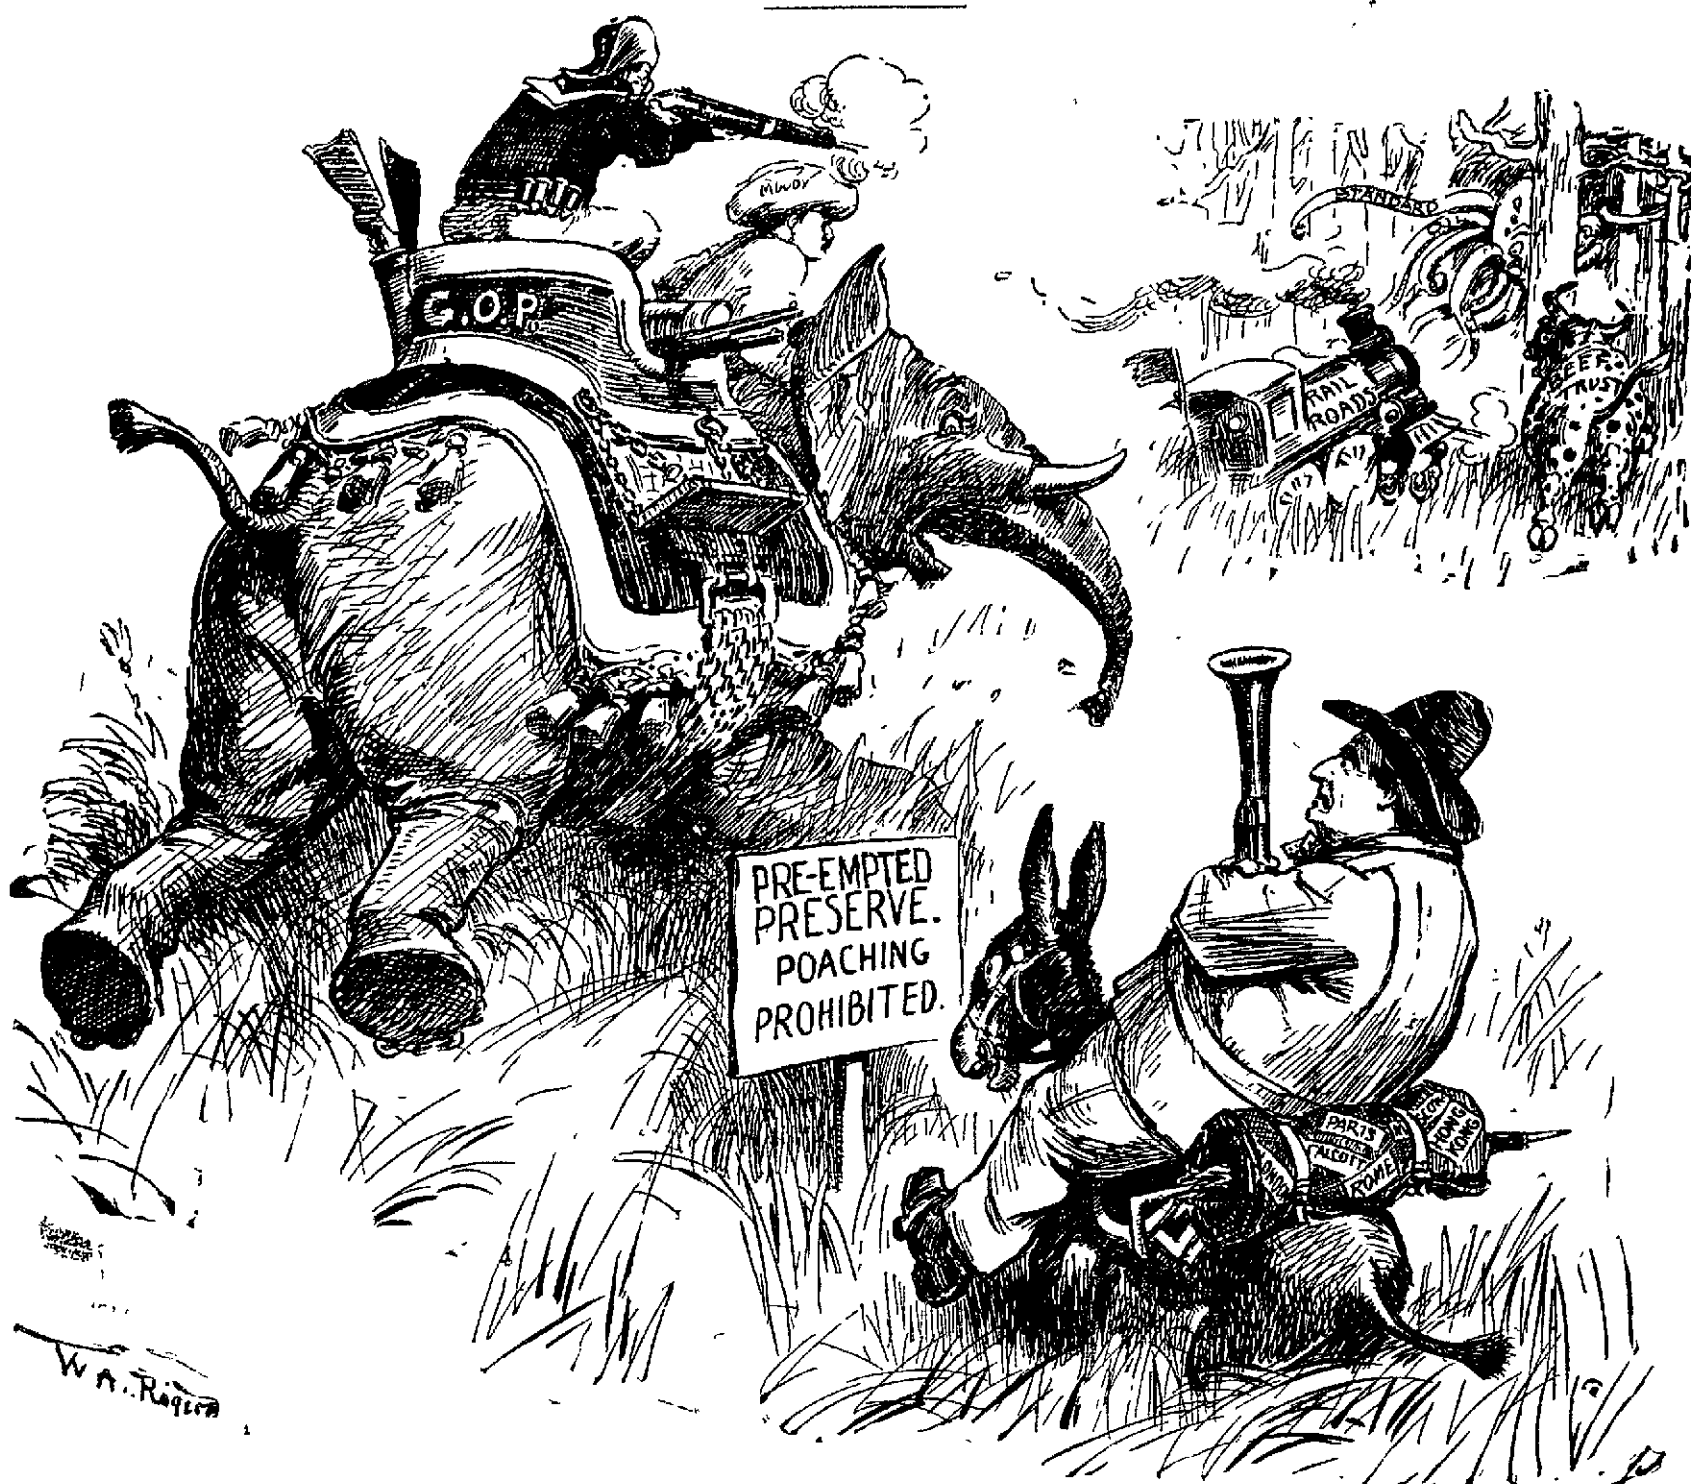

"The resignation Wednesday evening of Guard James Todd, the Democratic appointee to the staff of prison guards from Defiance county, sounded the death knell to all Democratic officials about the big penitentiary. Thursday morning the roster included none but Republicans."

#### The Man To Nominate.

(Wapakoneta Daily News.)

The election of John M. Pattison, last November as governor of Ohio was a protest against the reign of the political bosses who sat enthroned at the head of the Republican party of this great state, outlined the policy and dictated nominations in utter disregard of the wishes of the rank and file of the party. Ohio had become a boss-ruled state. The large and unprecedented plurality won by Roosevelt the year before was mistaken by the bosses as an endorsement of the machine. These bosses, feeling secure, became more defiant of public opinion, more arrogant in their sway, and sneered at the thousands of earnest, thoughtful, patriotic Republicans who had the courage to cry out against their unwarranted and unjust usurpation of power. The bosses misread the signs of the times. Thousands of Democrats had cheerfully voted the year before for Roosevelt and their course was suggestive to Republicans. The year 1905 was therefore ripe for an uprising of Republicans. The hour was at hand. The Republican convention, bosses, owned and controlled by the Dick machine, had ignored their protests and forced upon the party the machine slate headed by Herck. Independent Republicans by the thousand looked to the Democratic party for relief. They looked not in vain

#### THE UNINVITED.

(Reproduced by special arrangement with the New York Herald.)

When the Democratic convention met it was a convention of the people. The rural counties were in absolute control and they named John M. Pattison as the standard bearer of the moral forces of Ohio. The fight was on, and when the votes were counted election night the Republican bosses found their army defeated and demoralized. The quarter million plurality of the year before had faded away and given place to a Democratic plurality of more than forty thousand.

The election of John M. Pattison was in no sense a Democratic victory. It was a victory of the people, made possible by an unbossed Democratic convention and the earnest support of the moral forces of both parties. The good following that election needs no recounting here. It is known to all. Much more would have been accomplished had the great governor been spared to live out his term of office. His work is unfinished and the Democratic party owes it to his memory to take up the task where he left off and never rest until it is completed. The Pattison pledges must be kept, and to show good faith the state convention must adopt a platform in keeping with his views and name a candidate to head the ticket who is in sympathy with and a part of those views.

Such a man is Samuel A. Hoskins, of Wapakoneta. He stands for all that Governor Pattison stood for and is a most fitting person to head the Democratic ticket this year as the candidate for secretary of state. The bosses who were deposed last year are again in the saddle and the fight to dislodge them is just as necessary now as then. Mr. Hoskins was Governor Pattison's warm friend and confidant, his record is clean and spotless, and he possesses qualities which eminently fit him for leadership. He is prominent in religious, educational and lodge circles, successful in law and manufacturing, is an eloquent speaker, has a very wide acquaintance and possesses to an unusual degree the magnetic qualities which tend to friendship and popularity. He is a self-made man in the true sense of the term. He was born in Union county March 5, 1862, graduated from the Ohio Northern University at Ada and also attended the Ohio Wesleyan university at Delaware. He taught school several years and in 1890 graduated from Cincinnati College of Law, taking up the practice of his profession at Wapakoneta, where he soon became one of the leading members of the bar. Six years ago he was elected prosecuting attorney of Auglaize county and is now serving the last year of his second term. He was a member of the last general conference of the Methodist church and is now one of the trustees of the Ohio

Northern University and is also president of the Lima Hospital Commission, having been appointed a member of this body by Governor Pattison.

Mr. Hoskins is not a candidate for the office of secretary of state or any other office. He has no taste for office holding. Following the mention of his name by a Columbus paper several days ago in connection with the nomination, he unhesitatingly stated that he did not wish to be a candidate and hoped the delegates to the state convention would be able to find another person whom they deemed a stronger candidate. This is the kind of man to nominate—one who will make personal sacrifices for the public good. He will respond to the call of duty and if the convention names him as the Democratic standard bearer no mistake will be made. Pattison blazed the way for victory for the moral forces of Ohio, and if Samuel A. Hoskins takes up the Pattison standard, laid low by the hand of death, the bosses, who again sit enthroned, will be swept from power, crushed to rise no more.

#### MAN CONFESSES

Harold Sawyer Admits He Assisted Svoboda in Robbing George Cochran's Residence.

Chicago, Aug. 6.—Harold Sawyer, alias James Murray, who was taken into custody recently with Jacob Svoboda on a charge of robbing the residence of Mrs. Edward L. Welsh in Philadelphia of \$10,000 worth of jewelry, confessed to the police that he assisted Svoboda in robbing the home of George Cochran in Philadelphia of jewelry valued at \$3,000, Oct. 25. Sawyer says he was employed as assistant butler in the Cochran home.

#### MANY PENCILS USED BY CLERKS OF GOVERNMENT

Washington, Aug. 6.—The enormous quantities of supplies used by clerks in the nine executive departments is forcibly illustrated by figures furnished for the fiscal year ended June 30. It is shown that during the last fiscal year there were 1,317,412 lead pencils used. If manufactured uncut these would make a mammoth pencil 142 miles and 13 rods long. The army of clerks used 68,676,288 sheets of paper, letter size, which, placed side by side, would cover a plot of 2,346 acres. They also used 4,771,440 pen points and more than 250,000 pen-holders. The clerks used 8,356 gallons of paste, 78,400 pints of black ink, 5,766 pints of red ink, 6,747 pints of blue ink, and 2,452 pints of green ink. The total value of the supplies used was \$167,001,724 pints, and 20,436,900 rubber bands of all sizes.

#### ELECTRIC CAR JUMPS TRACK

FIFTY PASSENGERS HAD NARROW ESCAPE FROM INJURY SUNDAY NIGHT.

Big Motor Hit Curve at Full Speed and Collided With Electric Light Pole.

Between forty and fifty passengers on west bound city trolley car No. 35 had a miraculous escape from serious injury or death at 8:30 o'clock Sunday evening when the motor left the rails at the corner of Church and Eleventh streets, and plowing across the street at full speed was stopped by contact with a city electric light pole which was crushed at the base. The running board was splintered and the big car was otherwise slightly damaged.

Fortunately not one of the passengers was badly hurt. Several complained of slight bruises after the accident and all had a thorough shaking up and a bad scare.

The car was in charge of Conductor Thomas Alexander and Motorman A. L. Head. It is said that the motorman explained the accident by saying that he thought he was at Tenth street instead of Eleventh and therefore did not shut off the power for the sharp curve at the corner of Eleventh and Church.

The crash of the car with the electric light pole was heard two blocks away and people hurried from every direction expecting to see the ground covered with dead and wounded people. It was indeed a lucky accident.

Danville, Ill., Aug. 6.—A heavily loaded car on the Danville-Urbana interurban line was overturned while rounding a sharp curve here last night. Kelly Smoot, a constable, was killed and twenty passengers seriously injured.

The accident was caused by a draw bar pulling out of the front trucks. The car rolled down a ten-foot embankment.

Worcester, Mass., Aug. 5.—Two cars met in a head-on collision on the Worcester and Holden trolley line, five miles from Worcester Sunday, and 17 persons were injured. The most seriously injured, Miss Campello Presto, Boston, fractured skull, may die. Miss Florence Johnson, Worcester, broken knee cap, shock, condition serious.

#### Blood Poison Cured.

Money refunded if a 50c bottle of Smith's Potassium Compound fails to relieve you of Blood Poison, Scrofula, Facial Eruptions and other blood impurities. Smith's Potassium Compound contains the most valuable blood specific known to science. Test it at our risk. 50c bottle refund if it contains Opium or Narcotics. 50c bottle. At all druggists.

Miss Bertha Royce, Worcester, lacerations about lower limbs. Roland Johnson, Worcester, abdominal injuries; condition critical.

Sandusky, Aug. 6.—Two interurban cars on the Lake Shore system ran together Saturday afternoon, killing 2 and injuring 15 seriously. A third victim died Sunday.

#### RAILWAY AFFAIRS

##### All Engines to the Shops.

Orders have been sent out from the headquarters of the Baltimore and Ohio Railroad company at Baltimore to the division officers that all engines on that system are to be sent to the shops immediately for a thorough overhauling, so the company will be prepared to handle the heavy freight traffic this winter.

It is seldom that such orders are sent out from the general headquarters, as the division officials are supposed to look after the motive power in their respective districts. The action of the executive officials indicates that an enormous increase in freight traffic is expected this winter, and that every locomotive will be used. While the Baltimore and Ohio company has received a large number of new locomotives this year the officials believe that the increase in business will be so great that the company cannot afford to have any of its rolling stock out of commission for any length of time.

##### B. & O. Repair Shops.

The instructions sent out from Baltimore also indicate that all the repair shops will be operated full time to make the necessary repairs to the cars and engines. On account of the unusually heavy traffic this summer, more men have been employed in the repair shops than during any summer for several years, and comparatively few men have been idle. It is customary to lay off a large number of the employees and reduce the working hours of the remaining force during the summer months, but this year there was plenty of work in all departments. While the Baltimore and Ohio has contracted for more engines, it is not likely that any of them will be delivered for some time, as all the locomotive building plants have sufficient orders on hand to assure steady operation for several months.

##### Caught Under Engine.

Chicago, Aug. 6.—Charles McCann, fireman of Dixon, Ill., was killed, and A. W. Loakman, engineer of this city was severely injured when part of a coal train on the Chicago & North-western railroad jumped the track and fell 20 feet down an embankment at Fortieth avenue and Kinzie street. The engine and two cars were wrecked. McCann was caught under the engine and scalded to death.

##### B. & O.'s New Building.

Baltimore and Ohio general officers expect to get into the large new office building at Baltimore this week. One of the things that has already been shown is that the new building, although fourteen stories high, will not provide sufficient office room to meet the requirements, and as a result many of the departments will

be crowded. The officers expect to have to keep some of the departments in the old quarters that have been used since the Baltimore fire destroyed the old Central building.

##### Against Public Policy.

From what can be learned, the interstate commission, in its report, will find that the Pennsylvania, through ownership of a very large minority interests in the stock of the Baltimore & Ohio, Norfolk & Western and Chesapeake & Ohio, actually dominates the management of these parallel and naturally competing lines. This condition the commission will hold to be against public policy, if not a violation of the interstate and anti-trust laws. Facts developed in the investigation clearly showed that the Pennsylvania interest in these other roads was effective, and did result in a material advance in bituminous coal rates, to the heavy cost to consumers of coal through the east. —Cleveland Plain Dealer.

#### INVENTION OF COSHOCTON MAN

Rev. F. M. Hurley Patents New Mail Catching Device That Will Be Tested.

Coshocton, Aug. 6.—Rev. F. M. Hurley, the inventor of the wonderful new mail catching device, which was recently tested at Blissfield, has just returned from Washington, where he went to be present at the opening or bids by the government in the competition for the contract to furnish an acceptable patent for use on the mail trains of the country.

There were submitted twenty-eight different patents, all the devices aiming at making an exchange of mail at stations by fast moving trains without stopping. After reading the long list of applicants the postal authorities decided the most practical way to arrive at a decision will be for a committee to investigate the different devices and select those it finds at all practicable. Afterwards these devices will be given practical tests and the one that produces the best results under all conditions will be adopted. A test will probably be made here in Coshocton of Rev. Mr. Hurley's invention.

# WONDER IS MORE WERE NOT KILLED IN LAKE SHORE TROLLEY WRECK

**Two Trains Collided While  
They Were Running at  
Full Speed**

**EIGHTY PASSENGERS IN CARS**

**THREE ARE DEAD AND FIFTEEN ARE  
SERIOUSLY HURT**

**Police Chief Suspended—Trains Side-  
wiped—Woman Gets New Trial  
—Ohio News Budget.**

Norwalk, O., Aug. 6.—Thorough inquiry will be made as to the cause of the disastrous collision of interurban cars of the Lake Shore system near Vermillion, in which two persons were killed and many injured. There were 80 passengers in the two cars. Of the 50 injured about 15 were seriously hurt. W. H. Moody of Beach Park, O., motorman on a limited car westbound, and Frank Smiley, 14, of Lima, a passenger, were killed. The cars were going at full speed when they met on a curve.

J. F. Yerrick, salesman, of Elyria, injured in the wreck of the Lake Shore traction line near Vermillion, died at a Lorain hospital. Yerrick's skull was crushed and an operation failed to have beneficial results. Yerrick was the third victim of the wreck to die. The condition of Cy Young of Beaver Dam, Pa., and Harold Gensel of Lima, O., the two others for whom there was little hope at first, are still alive, and the hospital physicians say they will recover. All told 54 persons were injured, but many of these received only slight cuts and bruises.

**Trains Sideswiped.**  
Akron, O., Aug. 6.—While taking a siding at Silver Lake, five miles north of here, a northbound accommodation passenger train on the Cleveland, Akron & Columbus railroad was sideswiped by a southbound passenger train. Nine people were injured, but none seriously. One coach of the northbound train was hurled from the tracks and overturned and another was turned on its side. There were nearly 50 persons in the overturned car, and nine of them were cut and bruised. The passengers were imprisoned in the car awhile, but windows were soon broken and all were taken out. The accident is said to have been caused by disregard of orders by the engineer of the southbound train.

**Beidler in Possession.**  
Wooster, O., Aug. 6.—The force of armed men in control of the mines of the West Lebanon company during the week were withdrawn. The action follows the granting of an injunction to Congressman Jacob Beidler against Dan R. Hanna and his partners, who had taken possession on an order from a Cleveland court. On supplemental petition Judge Taggart also allowed an order giving Beidler possession of the property. Beidler stated that he had come to an understanding with the miners and will open the mines for work at once.

**Not Tramps but Tramping.**  
Norwalk, O., Aug. 6.—John Wasserman and J. B. Owens, two men brought from Bellevue to Norwalk a few days ago and lodged in jail, charged with being tramps, carrying concealed weapons and impersonating deputy sheriffs, refused to pay their fines. They say they will hang first. Both are bright, educated young men. Wasserman says he is a postal clerk and also a county deputy sheriff of Brooklyn, N. Y., while Owens is a plumber of the same city. They say they are not tramps, but on a vacation, and took the role of tramps.

**Police Chief Suspended.**  
Kenia, O., Aug. 6.—Mayor William Brennan, the "blue law" official of this city, sprung a sensation when he suspended the chief of police, E. M. Smith, identified with the police department of this city over 21 years. Smith refused to obey an order of the mayor to arrest, on warrants, several prominent business men for partially blocking the sidewalk in front of their business houses. The case will be heard by the board of safety.

**New Trial For Mrs. Morehouse.**  
Wooster, O., Aug. 6.—Mrs. Enola Morehouse, convicted of manslaughter for causing the death of a babe by poisoning, will get a new trial. Judge Eason set aside the verdict of the jury, holding that the verdict was not warranted by the evidence. Mrs. Morehouse is the woman who was ac-

cused of conducting a baby farm near West Salem.

**Meat Condemned.**  
Columbus, O., Aug. 6.—A ton of spoiled bacon and ham was condemned by the city meat inspector, who ordered it destroyed. It is said the meat was shipped here from Cleveland to a peddler, to whom it was sold for 2 cents per pound.

**Grieved to Death.**  
Marion, O., Aug. 6.—Grief over the death of her son, Francis McFarland, which occurred four weeks ago, caused the death of Mrs. Bridget McFarland. Previous to the death of her son Mrs. McFarland was in the very best of health.

## BOY IS KILLED BY MEDICINE SAMPLES

**Three Year Old Child at Wooster  
Dies of Poisoning as Result of  
Eating Tablets.**

Wooster, Aug. 6.—The three-year-old son of John M. Patterson died of strychnine poisoning Sunday. The little fellow was taken ill suddenly, and when a physician was called had taken strychnine. All that was possible was done to save his life, but without avail.

It is believed that the child got the medicine out of packages of a patent medicine that were thrown about the city. It is claimed that the tablets contained strychnine.

## MR. J. M. GARBER RETURNS HOME

**AFTER UNDERGOING UNUSUAL  
AND DIFFICULT SURGICAL  
OPERATION.**

**Last Wednesday Dr. Gilliam Removed  
Two Feet of Nerves from  
His Face.**

The following from the Columbus Dispatch of Sunday tells of the return of Mr. J. M. Garber of 60 Pearl street, this city, who left Tuesday of last week for St. Anthony's hospital in the Capital City where he underwent a surgical operation for an uncommon nerve disease known as tic.

J. M. Garber, a prominent citizen of Newark, has just returned home after undergoing a delicate operation at St. Anthony's hospital.

Mr. Garber has for a long time suffered from excruciating facial neuralgia, or what is known as tic.

Last Wednesday Dr. Earl M. Gilliam removed over 24 inches of nerves from Mr. Garber's face, since which time he has been free from pain.

The operation leaves practically no scar and admits of the patient being around in a day or two.

Although suffering slight pain from the operation it is believed that Mr. Garber will be able to go about his duties within a short time.

## MR. ROCKEFELLER GIVES A TALK

**OIL KING ADDRESSES SUNDAY  
SCHOOL ON "LOVE THY  
COUNTRY."**

"Great and Good Country to Live In."  
He Shakes Hands With All  
Present.

Cleveland, Ohio, Aug. 6.—"Love Thy Country" was the text of John D. Rockefeller's speech to the Euclid Avenue Baptist Sunday school last evening. The oil king is superintendent of the school and this was his first appearance before it this year. He greeted practically every one present and shook his hand.

Government prosecution of the Standard Oil company evidently has not cooled Rockefeller's love for his country. In his speech he said: "This is a great and good country to live in. It is a powerful country. It has grown to its present strength from the strength of a few Puritan fathers who first settled here. "It was this spirit of the Pilgrims—this love of truth, respect for it, the desire of right living, which laid the massive foundation of the United States. "The Puritans made the beginning."

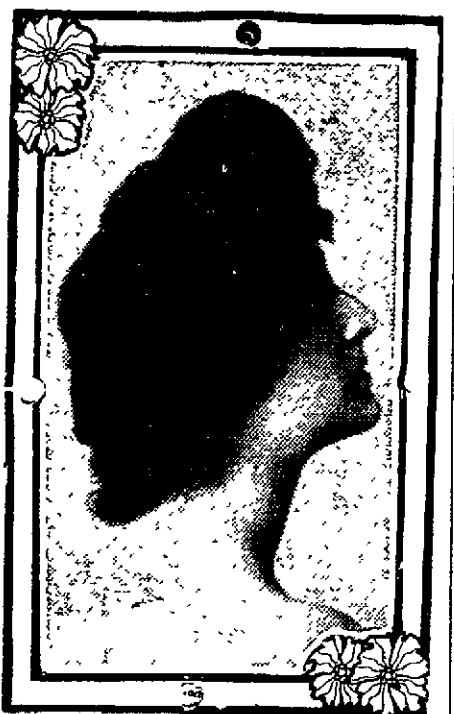

what it was; we should keep it as it was intended.

"That is why we should love this country or ours; love her people, her business, her institutions. We should sink the smaller annoyances in the greater things, we should remember that the events which seem overwhelming now will be forgotten in a decade. Through it all we must show our love for our fellow men."

"We are free in this country. We can study the Bible, live in truth and accomplish great ends by our freedom. In living in the United States we have a heritage which is most valuable."

## PRETTY PEARL CARRIES PARASOL OF LONGWORTH BLUE

New York, Aug. 6.—Miss Pearl Handel sways in unison with eleven other young women, making up the show girl line in "Seeing New York" or the New York theatre roof. She is

Miss Pearl Handel.  
Photo by WINDGATE.

dependable, for the reason that she is painfully exact in all things. At rehearsal on Tuesday she broke the trick parasol carried by the girls in "L'aragorie" scene. Mr. Hart was pained. He could not, he said, get another made in less than a week. She bade him be of good cheer, explaining that she had a parasol at home which might serve.

"But our color scheme! Our color scheme!" he yelled. "We must have regard for it! What shade is your parasol at home?"

"Mrs. Nicholas Longworth blue," she replied.

## DESPERATE DUEL

**In Which Both Participants Were  
Shot Through the Heart.**

Springfield, Mo., Aug. 6.—On the streets of Chadwick, a small town 30 miles south of Springfield, Charles Freeman, a merchant, and Robert Keene, 18, fought a duel to the death with revolvers. Suit recently was brought by Freeman against Keene charging the latter with assaulting his 15-year-old daughter. Freeman was reported to have threatened to shoot Keene on sight, and both men went armed. When they met on the street they immediately drew revolvers and began firing. Freeman was shot twice, one bullet penetrating the forehead and another the region of the heart. Keene was shot three times, one bullet striking him in the heart. Both men were dead when spectators reached them.

**LAWSON'S WIFE**  
Died of Heart Disease After Illness Lasting Several Months.  
Scituate, Mass., Aug. 6.—Mrs. Thomas W. Lawson, wife of the Boston financier, died at Dreamworld, Mr. Lawson's summer home here. Mrs. Lawson suffered from heart disease several months. With the exception of her son Arnold, all of her children and her husband were at her bedside when the end came. Arnold Lawson arrived home shortly afterward. Before her marriage to Mr. Lawson in 1878 Mrs. Lawson was Miss Goodwillie of Cambridge.

Lecture at Taylor Hall. Y. M. C. A., by Eugene V. Debs, Tuesday evening, August 7, at 8 o'clock. Admission, 25 cents.

**Trans-Mississippi Congress.**  
Kansas City, Mo., Aug. 6.—The official call for the seventeenth annual session of the trans-Mississippi commercial congress to meet in Kansas City, Mo., Nov. 20, 21, 22 and 23, 1906, was issued by the executive committee. The congress promises to be the most important since its organization. Many great questions are to be considered.

**Tragedy Over \$10.**  
Middlesboro, Ky., Aug. 6.—In a fight on the streets of Middlesboro over \$10 John Bird shot and instantly killed Abe Bozelle. Bird fled to the mountains, pursued by a posse.

**CUTS AND BRUISES**  
Received by Knights of Columbus in Wreck in Missouri.  
St. Genevieve, Mo., Aug. 6.—In a head-on collision between a passenger and freight train on the Frisco road here 20 were injured. The engines were demolished and the tracks torn up a considerable distance. The injured were taken to St. Louis on a special train.

The passenger train was a special from St. Louis bringing representatives of the Knights of Columbus. Cuts and bruises comprised the injuries, none of the passengers being fatally hurt. The engine crews jumped and escaped. It is claimed the accident was due to the freight train running in on the main track from a switch which should have kept on the switch until the passenger train passed.

## CONSCIENCE IS PASTOR'S THEME

**DISCOURSE AN URGENT APPEAL  
TO THE MORAL SENSE  
OF MAN.**

**Rev. L. C. Sparks Will Next Sunday  
Morning Talk of Making of  
the Bible.**

A very forceful discourse was that delivered in the First Methodist church Sunday evening by the pastor, the Rev. L. C. Sparks. The subject announced for the evening service, "The Making of the Bible," was changed by the pastor to a "sermonette" upon the subject of conscience, with the announcement that the sermon of next Sunday morning would be under the first named subject.

The discourse was an urgent appeal to the moral sense of man. Taking for his text the Acts, the twenty-fourth chapter and sixteenth verse: "And herein do I exercise myself, to have always a conscience void of offense toward God, and toward men," he stated the functions of this, greatest of God's gifts to man. First, there is the function of distinguishing right and wrong, next, the power of approving right and condemning wrong; and third, the imperative nature of the conscience, demanding that right be supreme in the soul.

In the course of his talk, Rev. Mr. Sparks called attention to the widespread belief that whatever a man does in sincerity is well done whether right from a moral standpoint or not, and in that same manner, that it makes little difference what religion a man has if he is sincere in it. He stated that in order to have a conscience which did not cause the soul to reach a state of moral confusion at times, was to exercise that conscience, and the only possible way to its purity is in that means constantly spoken of by Paul—living in the shadow of the cross, and if a man is to declare his conscience before his fellow men he must bring that conscience face to face with the great law of God. He stated that when you find the man who keeps his heart close to God, he is willing to live in the attitude of soul which causes him to possess a strict moral sense and courage with it.

The speaker compared the consciousness of the soul to the finely adjusted balances used by scientists by which they are enabled to weigh a hair or the stroke of a pen, noting that when they are kept in use they work accurately as should the "exercised conscience." Reference was made to the words of Jesus spoken of the conscience: "The light that is within us may become darkness," in which the speaker interpreted the words as meaning the sensitiveness of the soul and how it may become blunted by careless use and neglect, as it were, "putting out the very eyes of the soul." This very thing, he stated, is seen every day in the lives of those who call themselves Christians, but who will turn down the inner voice for some reason really unknown to themselves.

The last great function of the conscience to be dwelt upon by the speaker was approbation, approval of a right act, stating in conclusion that there is nothing in all the world, that has to do with the Christian life, so important as this inward guiding voice which God has given.

Although not largely attended owing to the heat, the subject chosen by the pastor was greatly appreciated because of its practical nature, dealing with the greatest part of our being. Excellent music was furnished by the regular choir under the direction of Mrs. Bertha Doomey Roe.

**Trans-Mississippi Congress.**  
Kansas City, Mo., Aug. 6.—The official call for the seventeenth annual session of the trans-Mississippi commercial congress to meet in Kansas City, Mo., Nov. 20, 21, 22 and 23, 1906, was issued by the executive committee. The congress promises to be the most important since its organization. Many great questions are to be considered.

**Tragedy Over \$10.**  
Middlesboro, Ky., Aug. 6.—In a fight on the streets of Middlesboro over \$10 John Bird shot and instantly killed Abe Bozelle. Bird fled to the mountains, pursued by a posse.

## CUTS AND BRUISES

Received by Knights of Columbus in Wreck in Missouri.  
St. Genevieve, Mo., Aug. 6.—In a head-on collision between a passenger and freight train on the Frisco road here 20 were injured. The engines were demolished and the tracks torn up a considerable distance. The injured were taken to St. Louis on a special train.

## DAMAGE SUITS

**May Result From Leper's Sojourn in  
West Virginia.**

Elkins, W. Va., Aug. 6.—Steps will be taken, it is said, by the board of health of Randolph, against both the Baltimore and Ohio railway and the state health authorities, compelling them to remove George Rashid from this county. Acting under legal advice, the board of health proposes to quarantine all that part of the Baltimore and Ohio railway which traverses Randolph county should that company fail to remove him from the county, followed by a suit for damages. The full period of Rashid's residence in Elkins is covered by two weeks. Considerable feeling has been aroused against Governor Dawson for his action in ordering the leper brought back to Randolph county, and it is claimed that he was without authority. It is feared here that harm may come to the leper, as feeling is intense.

## TWO JURIES

**Will Pry Into Business Methods of  
Standard Oil Company.**

Chicago, Aug. 6.—The federal grand jury called to investigate all the ramifications of the system whereby, it is alleged, the Standard Oil company has for years enjoyed secret rebates from various railroads, met here today. This grand jury will have cognizance of acts which the government alleges were committed prior to March, 1905. Another grand jury will meet Aug. 13 to deal with alleged violations by the Standard Oil company of the Sherman anti-trust law subsequent to March, 1905.

The Licking County Creamery has placed a fine new wagon on the streets, which will handle a complete line of their elegant ice creams. Listen for the bells.

## Save Your Sight

Have your eyes examined and tested by a skilled optician. Dr. Weist of The France Medical Institute Co., will EXAMINE YOUR EYES FREE, and if glasses are required he will fit you 50 per cent lower than any other firm. We grind lenses to suit each person.

## If You are Suffering from any Disease, Weakness or Disability

Why Not Consult Free an Experienced, Educated Specialist, who is thoroughly equipped with the necessary appliances known to modern medical science?

## It Will Pay You to Go 200 Miles to See Dr. Weist

Chief Examining and Consulting Physician of the France Medical Institute. Dr. Weist will do more for you and insure perfect success and in the shortest possible time and you are at no charges if he fails to heal—fails to cure. Not a PENNY is lost to you if you are at all dissatisfied.

## HE HEALS ALL CURABLE CASES

The France Medical Institute Established 1886. 19 years in Columbus. For nineteen years we have been making regular monthly visits to the principal cities of Ohio. Our long experience, reasonable skill, and great success entitle us to the full confidence of the afflicted. REFUSE—don't let any other doctor or man at Columbus. Men and women who need treatment, find out what ails you. When the real trouble is known that is one half the cure. Not a dollar need be paid unless you are absolutely satisfied in every particular that Dr. Weist will keep his agreement.

## WHAT AILS YOU?

Throat, Lung, Nasal Diseases Catarrh, Consumption, Bronchitis, Asthma.  
Heart, Blood and Skin Diseases Ulcers, Sores, Pimples, Eczema.  
Brain, Spinal and Nerve Diseases Such as Paralysis, Epilepsy, Fits, Neuritis, Sciatica, Headaches, Sleeplessness, Dizziness, Neuralgia, and Rheumatism. Our cure for Rheumatism is the most successful known to medical science.  
Rheumatism Our cure for Rheumatism is the most successful known to medical science.  
Young and Middle-Aged Men who suffer from the effects of youthful indiscretions and Nervous Debility may call with confidence.  
Diseases of Women After years of experience we have discovered the most reliable, safe, and the greatest cure known for diseases peculiar to the sex. Painful Menstruation, Sterility, or Barrenness, Leucorrhoea, Prolapse, Ovarian and Fibroid Tumors in the early stages, etc., positively cured by our method. Our treatment is perfectly harmless and easily applied. No harmful exposure or examination. Try it, and you will exclaim like hundreds of others: "Oh, I feel like a different woman."  
Rupture and Varicocele permanently cured without the use of the knife, truss or suspension. Be sure and consult us before taking treatment elsewhere.  
Kidney and Bladder Diseases Bright's Disease, Diabetes, Enlarged Prostate, Frequent and Dribbling Urination. It costs no more to employ an expert than to risk your life with an inexperienced physician.  
Stricture and all forms of disease of the urethra and prostate gland cured by our Medicated Bougie, a method of treatment without pain or detention from business.  
Syphilis or Blood Poison cured without use of injurious drugs where others fail.

Not necessary to attend expensive Sanitariums, Hospitals, or Health Resorts. Our medicines and treatment can be taken and applied at home. Each case applying for Medical Treatment to our visiting physician or at the home office a rapid letter from two to four ounces of urine, which will receive careful chemical and microscopic examination. Consultation and Examination free at strictly confidential. No names published without written consent.

Nothing is paid by you if nothing is done for you. RESULTS COUNT. NOTHING ELSE. You get satisfaction, you get cured or you are OUT NO MORE.

The FRANCE MEDICAL INSTITUTE CO., 38-40 West Columbus, O. Next Door West of the Inter-urban Station

## ADVOCATE WANTS BRING RESULTS

# NEWARK WON TWO FROM SHARON LOST SATURDAY'S AKRON GAME

Locke's Five Hit Contest at East's Village Was a Hard  
One to Lose--Sharon's Play Sunday Was a Huge  
Joke--Wratten Batted Hard.

**HOW THEY STAND.**

Clubs.	W.	L.	P.C.
Youngstown	59	28	.678
Akron	51	36	.586
New Castle	47	43	.522
Zanesville	44	43	.506
Lancaster	42	47	.472
Mansfield	40	52	.435
Newark	39	51	.433
Sharon	35	55	.382

**Yesterday's Results.**  
Newark 7, Sharon 3.  
Newark 4, Sharon 0 (6 innings).  
Zanesville 4, Youngstown 3.  
Lancaster 3, Akron 0.  
Mansfield-New Castle (forfeited to Mansfield.)

**Saturday's Results.**  
Sharon 3, Zanesville 2.  
Youngstown 19, Mansfield 0.  
Youngstown 14, Mansfield 1.  
Akron 1, Newark 0.  
Lancaster 3, New Castle 2.  
Lancaster 4, New Castle 4, (eight innings.)

**Today's Games.**  
Youngstown at Zanesville (two games.)  
Akron at Lancaster.  
Sharon at Newark.  
New Castle at Mansfield.

**Tomorrow's Games.**  
Youngstown at Akron.  
Sharon at New Castle.  
No games scheduled at Newark, Mansfield, Zanesville and Lancaster.

**BULLETIN.**  
Uncle Sam Wise gave no notice here yesterday of his resignation, although this was his first appearance here this season. Much alarm is felt lest this painful announcement be made after Monday's game with Sharon.

Fresh from their disastrous trip abroad, the Molders turned up again at Wehrle park Sunday afternoon and gave the Sharon team a good trouncing in two games. The Newark bunch seemed to have no difficulty in annexing both games, and but for a weakness of Stroup in the eighth inning of the first game, both might have been shutouts.

Newark people are still unable to see why Sharon is in the O.-P. league class. The team has played but one real live game of baseball here this season, and nearly all of their exhibitions have been of the rankest sort. The games Sunday were no exception to the general rule.

To start the ball rolling, Lindsey was sent in to do the box work for the Crowless Ravens, and his work was almost on the verge of disgusting. While the Newark hitters were battling his curves all over the lot, Lindsey seemed to make no effort to stop the onslaught and made monkey faces at the umpire and did numerous other stunts on the diamond which gave evidence that he cared little whether the game was won or lost.

The first two innings were well played. Danny Davis did lead off with a hit and Snyder drew a pass, but the side was retired without a run. It was in the third that the first runs were scored. Davis got another bingle and Snyder went out on bunt strikes. Schweitzer drew a pass and Wratten was present with a timely bingle to left field fence for three bases. Rats was not satisfied with waiting for Bally's hit, but stole home very neatly.

Things then moved along smoothly until the seventh, when a fusillade of drives to the outer gardens almost turned Lindsey's hair gray with fright. Winters plucked a double, but was out at third when Lindsey fielded Stroup's attempted sacrifice to Sellers. Davis fled out to Glassburner in middle and Snyder doubled to right. With two on the sacks, Schweitzer took the second triple of the game. It brought a clean drive to left center. Wratten followed with a two base drive to left field. All of the hits were clean and in the nature of line drives. Bally finally ended the agony by hitting to Ferguson at second.

In the ninth Haval hit safely and took second on Fery's fizzle. Winters hit another safe one, and with two on bases Stroup hit a scratch two sacker to center field, scoring both men. Stroup was thrown out at third while trying to reach that sack on Davis' out to Glassburner. Sharon's three tallies came in the eighth. With Kerr out on an infield grounder, Lindsey drew a pass. Bradley singled and tried to stretch it into a double, but was thrown out at second. Lindsey took third. Sellers singled, scoring Lindsey and counted one himself when Hardy hit for three bases. Schweitzer misjudged the fly just enough to let it get out of his reach. White soaped the track and stopped the scoring machine with a grounder to Davis.

(Second Game.)  
Muldowney was slated to try the

pitching stunt in this event, and the game would be but seven innings long. Mul did all he could to make it shorter. He started just right by passing Davis and Snyder and then giving Schweitzer a nice one, which happened to look good for three bases. Two runs counted before Muldowney had time to draw his breath. Wratten drew a pass, and then Glassburner called Mul out and took the box himself.

Schweitzer was thrown out on a little by play between Hardy, Clever and Sellers, but Wratten stole second. Drake's single scored Bally and Wratten, making four runs count. Rain threatened the game, and Sharon commenced to soldier, while Newark was trying to rush matters. Hardy's double in the second counted for naught, as the necessary single wasn't forthcoming. In the third, Seller's single was spoiled by a sensational double play by Davis and Bally. The five innings were finally worried through.

In the sixth Sellers hit safely, but died on bases and Newark started her half of the sixth frame in a shower. Eddie Stroup, a Newark amateur, was sent to first to try out instead of Bally. He got in front of one of Glassy's crooked ones and went to first. Haval singled after Stroup was thrown out on an attempted steal. Drake drove a scorcher to left center and Haval scored.

With Drake on third and Shodgrass at bat and only one out, Timps Wise called the game. He left the boys on the field as long as possible, but it was no use. According to the rules, the score reverts back to the last full innings scored, so Newark was robbed of one score and two hits while Sharon lost one hit and no scores. The story of the two games is told in the following tabulations:

(First Game.)

Newark:	ab.	r.	h.	po.	a.	e.

**SATURDAY'S GAME.**  
(Special to the Advocate.)  
Akron, O., Aug. 6.--Akron defeated Newark here Saturday afternoon in a fast pitcher's battle the score being 1 to 0. Smiling Bill Ehmman of the Akron pitching staff and Big Joe Locke, Newark's steady twirler, were the opposing twirlers and they quit the game about even, though Ehmman had a shade the better of the pitching.  
Akron won out in the seventh inning when Nallin took a swift one in the ribs and scored on Taurantah Bill Swartz's single.  
In the field, Snyder and Callahan made sensational catches of hard chances. Captain Haval gave notice that he would protest the game, charging that Manager East threw a dead ball into the bleachers in the seventh inning. Score:  
Newark: ab. r. h. po. a. e.

**New Hair**  
Ayer's Hair Vigor makes the hair grow because it is a hair-food. Feed the hair-bulbs, and the hair grows. That's nature's way, and that is all there is to it. Strong and healthy hair stays in, keeps soft and smooth, and grows thick and heavy. Then add nature with Ayer's Hair Vigor. A little of it often does great things. There's genuine comfort in a handsome head of hair! J. C. Ayer & Co., Lowell, Mass.

## CITY LEAGUE

**CITY LEAGUE STANDING.**

Clubs.	W.	L.	P.C.
King Co.	9	2	.818
Rutledge	7	4	.636
Emerson	5	6	.454
Parish Co.	1	10	.091

For the first time in three weeks the City league teams were able to play the games scheduled. Both of the games were shutouts, Emerson defeating Rutledge by the score of 4 to 0, and King Co. taking over the Parish team by the score of 2 to 0. Both games were exciting and the pitchers worked well. This makes the sixth or seventh straight game lost by the Parish company, and with this game they fall below the hundred mark in the percentage column.  
In the Emerson-Rutledge game, Winters pitched good ball, keeping 5 hits well scattered. This makes the fourth straight shutout for Winters. He is but 16 years old, but has a bright future before him if he isn't worked too hard.  
Martin worked well for Parish, but was accorded poor support. He fanned 14 men and allowed but three hits. Harris, for the King Co., allowed but one hit. Scores:  
King Co. 2 1 0 0 0 0 0 0 0 2  
Parish 0 0 0 0 0 0 0 0 0 0  
Batteries--Harris and Dolan; Martin and Dougherty. Hits--Off Martin 2, off Harris 1. Struck out--By Harris 7, by Martin 14. Umpire--Kinney.

**AMATEUR GAMES.**  
The South End Sluggers defeated the Oklahoma Sluggers in a double header, the first game being won by a score of 6 to 4, the second by a score of 4 to 2.  
The Blue Clippers won from the Moon Street Stars Sunday by the score of 10 to 3.

## CORNELL STUDENT WALKS ON WATER

Ithaca, N. Y., Aug. 6.--Jose Antonio Ostos, a Mexican student at Cornell university, walked "on the water" at Cayuga lake yesterday. He wore a pair of water shoes, which he recently designed in the department of mechanical engineering. He shot about over the water in every direction with little apparent effort.  
The shoes are constructed of tin, with four air chambers in each, a separate compartment for the foot. They are 5 feet 3 inches long, 14 inches wide, and nearly 10 inches deep. Collapsible fans prevent them from slipping backward.  
A large crowd witnessed the test. Ostos' chief object in having the shoes made is to start a new form of water sport at Cornell, a sort of water lacrosse. He hopes to introduce the game in other universities if it proves a success here.

## DOG TREES FIVE POUND WATER TURTLE

A well known Newark writer who is noted for his love of nature and who is also possessor of a splendid farm, reported a story Monday telling his blooded bird dog "reed" a turtle in a briar patch on his farm Sunday afternoon.  
The newsman was enjoying his day of rest by wandering over his estate with his favorite dog when he was attracted by the continued barking of the animal. He crawled into a briar patch where the dog was making a big fuss and found a five pound water turtle gazing wonderingly at the dog. The scribe says the turtle was several hundred yards from any body of water.

## IF YOU TRY FATHER WILLIAMS' INDIAN HERB TEA, OR HERB TABLETS, AND DO NOT FIND THEM THE BEST MEDICINE YOU EVER USED FOR CONSTIPATION, TORPID LIVER, SICK KIDNEYS, SOUR STOMACH, SICK HEADACHE, NEURALGIA, DYSPEPSIA, INDIGESTION, BILIOUSNESS, MALARIA, DIZZINESS, AND BAD HEALTH, WE WILL REFUND THE MONEY.

They work day and night and you get up in the morning feeling like a new person.  
They cost 20 cents. Tea or Tablets.

**DR. J. T. LEWIS,**  
DENTIST.  
Office--New Phone 818, 42 1-2 North Third St.; Res. Old Phone 403.  
Teeth extracted without pain. Work guaranteed. Office hours 8 to 12 a. m., 1 to 5 p. m. Open Wednesday and Saturday evenings 7 to 9. Other evenings by appointment only.

**Skylights and Ventilators**  
Are not expensive and will pay for themselves in the course of time, with money saved on gas and electric light bills. We are prepared to manufacture Skylights or Skylights and Ventilators combined.

**Bailey & Keeley**  
Slate and Tin Roofing, Spouting and Repair Work.  
103 WEST MAIN ST.  
New Phone 133.

## POTATO SPRAYING BY J. F. KELLER

LICKING COUNTY FARMER TELLS  
HOW HE DOES WORK WITH  
MACHINE POWER.

An Interesting Article Published in  
Current Issue of the Chicago  
Prairie Farmer.

The current number of the Prairie Farmer of Chicago, prints on the first page, with a three column picture of Mr. Keller and his potato spraying outfit, the following article, entitled, "Spraying Potatoes by Machine Power," written by Mr. J. F. Keller of Newark:

So far our efforts in the line of spraying potatoes has been to destroy the Colorado beetle and to prevent the late blight, as the early blight has not yet appeared on our farm. For the late blight, we begin about the time the bloom begins to die, and after the setting of the tubers, two or three sprayings suffice. The number of applications is governed by the character of the weather. Rainy, changeable weather requires more frequent spraying. Ten days to two weeks may intervene.

Paris green, 1-2 lbs. to 50 gallons of the solution, is added to the Bordeaux preparation, when water is added for spraying. The Bordeaux formula is 5-6-50, that is to say, five pounds copper sulphate (blue vitriol), six pounds quick lime, 50 gallons water.

In preparing the stock Bordeaux we put 50 pounds of the sulphate in a gunny sack and with a stone hammer crush to reasonable fineness, then suspend this by laying a pole across the top of a barrel and tying the sack to the pole; the barrel is then filled with water and left standing over night to dissolve the vitriol.

Sixty pounds of lime is placed in another barrel and filled with water. This is stirred until it becomes creamy. This is called stock solution and may be kept indefinitely if covered to prevent evaporation.

The matter of the quantity of lime used is unimportant, except that enough should always be used to prevent burning of the plants by the sulphate. The inexperienced man should always use plenty of lime.

Our power sprayer tank holds 50 gallons. We place alternately in sprayer tank one gallon of the lime (strainer while taking out of lime barrel), one gallon of sulphate, till five gallons of sulphate and six gallons of the lime are in the tank. Then if beetles need attention, we add 1-2 pounds of Paris green, first made in paste form by mixing in a little water in an earthen vessel.

The 50 gallon tank is then filled with water. The sprayer is gauged to apply this to 1-2 acres as near as we can. Care should be taken to use a sprayer with a good agitator, and one that will distribute the solution to every part of the plant, and to use sufficient material to thoroughly coat the vines, or failure follows and labor and materials are lost.

While spraying is one of the most important factors in potato culture, on account of unfavorable weather conditions, the difficulty of gauging the strength of materials, and the fact of not having spraying apparatus at hand well adapted to the work by a very large per cent of farmers, makes it a somewhat difficult proposition. Much is learned by experience that is not easily acquired otherwise in this line.

Where one or two acres are to be sprayed some form of sprayer to be carried or wheeled will answer quite well. For areas of one or less acres hand power barrel sprayers mounted on spring wagon or two wheeled cart drawn by single horse, answers well. Power sprayers for areas of 10 acres and up will give best satisfaction.

In way of a suggestion I will see

that all materials are well strained before they go into the spraying mechanism. Materials should be kept in wood or earthen vessels to prevent corroding. Sprayers should have brass fillings, or the materials will soon eat them out, and those using some form of rotary distributor do not clog and are satisfactory.

J. F. KELLER.

## MISS DE COSTA NOT TO GO ON ROAD.

New York, August 6.—While it may be a far, far cry from grand opera "on the road" to comic opera

Miss Viola De Costa

on a New York roof garden—according to the point of view—Miss Viola De Costa has been so successful as "Mamzelle Champagne" on the Madison Square Garden roof that she anticipates remaining in New York hereafter.

## ARREST IT—\$50 REWARD.

A small bottle of Ec-zine will be sent free to every reader of the Advocate who is suffering with any kind of skin disease or eruption—Eczema, Blind or Bleeding Piles, Blood Poison, Fever Sores, Milkier Cancer, Rheumatic Pains or any other Germ or Virus disease or sore of any name or nature.

\$50 reward will be paid for any case of Eczema that is not promptly cured with Ec-zine. Ec-zine will heal any sore or cure the worst skin and make it look like velvet. Thousands cured daily. Never mind what you have tried; forget the failures made by other remedies, and send for free sample of Ec-zine which always gives relief and permanent cure.

A \$1.00 bottle often cures the worst cases. Ec-zine is successfully used in hospitals and by physicians generally. It is not a patent medicine. If your druggist does not have Ec-zine send direct to us. State nature of disease and years' standing. Address:

THE PHYSICIANS LABORATORIES,  
5-21st St. 86 Boyce Bldg., CHICAGO, ILL.

## CRAZED YOUTH

Was Seized With Peculiar Homicidal Mania While Hungry.

New York, Aug. 6.—William C. Pearson, a traveling salesman, while walking on West Twenty-third street was attacked by John Carle, who plunged a knife into Pearson's back. Carle, who is a mere youth, evidently was crazed, and after examination at prison was sent to Bellevue hospital for further investigation as to his sanity.

As Pearson fell Carle sprang upon him and began rifling his pockets, but ran away when a dozen passersby rushed on him. Half a block away he was captured by a policeman, to whom he surrendered the knife, saying, "Here's what's left of it." The blade was broken in half, leaving three inches in Pearson's back. Pearson was taken to the hospital, where it was found he was probably mortally wounded.

When taken to prison Carle, much emaciated and so weak as hardly to be able to stand, said: "I made up my mind to kill some one and rob him. I was hungry. I had eaten nothing since Friday night. I stole a fruit knife from a push cart and a few minutes before this man came along I made up my mind to kill the first man who passed. This man was the first, and I went for him."

Plans for the salt water and high-pressure system for the purpose of fire protection to the business part of the city of Seattle have been completed. The plan is modeled after the Philadelphia system.

## STILL SEEKING VINDICATION

MAJOR RATHBONE'S CASE STATED IN SENATE DOCUMENTS JUST ISSUED.

Not Fairly Treated by Wood, He Avers—Used Illegal Evidence, He Says.

Washington, Aug. 6.—Major Estes G. Rathbone, who was director general of posts in Cuba during the American occupation, has begun another fight for vindication. He was sentenced to ten years' imprisonment for malfeasance in office, but was pardoned under a general amnesty.

Senator Dick offered a resolution, which was adopted, shortly before Congress adjourned, providing that all the papers in Rathbone's case be printed as a document. This has just been issued and Major Rathbone believes it will form the basis for adopting a resolution of investigation.

Rathbone, in his statement of the case, declares that he was an officer of the United States Government serving in a foreign country, and should have been tried under the provisions of the constitution, but that he was tried by a tribunal appointed by Gen. Leonard Wood, the military governor of Cuba, and this court acted under the directions of Wood.

Rathbone declares that he was subjected to trial by arbitrary and unusual modes, contrary to the fundamental laws of Cuba and of justice, and that the proceedings were not a legal one, but was a special proceeding, directed and controlled by General Wood.

Rathbone states that he did not have a fair trial; that Wood fixed the amount of bail when he was released, and that Wood used illegal evidence against him.

By letter, General Wood communicated instructions to the trial court, Rathbone claims, and authorized the use of ex-parte depositions. He says witnesses were not summoned in behalf of Rathbone, which is contrary to the constitution.

Rathbone also states that he was convicted of conspiracy upon the uncorroborated testimony of an alleged conspirator, W. H. Reeves, a defendant upon the same charge, and whom, Rathbone declares, was a confessed forger and embezzler.

Rathbone claims that Reeves gave the testimony under promise of immunity from punishment and promise of reward, both of which he received.

## BOY CLAIMS HIS SISTER FIRED SHOT

Brookville, Ind., Aug. 6.—Gus Lawrence, 17, was brought in from Peppertown this morning and put in jail charged with the murder of Joe Engelhart, 46. The killing occurred Sunday. Lawrence claims he is innocent of the shooting and persists that the fatal shot was fired by his sister, Mrs. Letta Mendenhall, divorced wife of George Mendenhall, with whom Engelhart had been living for several years past. Coroner Bogart and Prosecutor McCarty have gone to the scene of the shooting to investigate and will bring in Mrs. Mendenhall if she can be found.

## EXCITED MAN CLAIMED WIFE HAD DOPED HIM

Sunday night about 11 o'clock, a man, hatless, coatless and in his stocking feet, with nothing on his person except an undershirt and a pair of trousers, came running up Fourth street, and bursting into the Central Fire department headquarters in excited tones asked where he could find a doctor, saying that he had been given "knockout" drops by his wife, and was afraid that if he did not succeed in getting proper treatment immediately he would die. The firemen directed him to the office of Dr. Carl Evans on Church street. Immediately upon gaining the desired information the man started on the run for the office of Dr. Evans. Fortunately the doctor was at his office, and the man hurriedly related a story of how his wife had given him "knockout" drops, but refused to give his name or say what the trouble was. The doctor gave the fellow an antidote, and after resting for a few minutes left the office feeling that the designs of his wife had been frustrated. The man said he lived on German street.

Vienna is to have the largest and finest illuminated fountain in existence. The illuminating power will equal 300,000,000 candles. It includes 27 immense reflectors capable of giving 700 variations in light effects every 17 seconds.

## HILLMAN WHEAT CROP FOR 1906

Licking Township Man Threshed 1790 Bushels from 58 Acres—Did Some Experimenting.

Mr. Ora Hillman of Licking township threshed 1790 bushels of wheat from 58 acres. Ten acres of the 58 were neither fertilized nor manured and this averaged 27 bushels to the acre. Thirty acres were fertilized and yielded 32 bushels per acre, while 10 acres which was top dressed with manure made 36 bushels per acre without the use of any commercial fertilizer. Mr. Hillman is convinced, by this experiment, that it will pay any farmer who has much of it, to buy a manure spreader. He has one which he has been using for two years and says he would not do without it for several times its cost if he could not get another.

Belgium, where public libraries are almost unknown, has 150,000 public houses. That means one public house for 26 inhabitants, or one public house for 12 men above 17 years old, the population included. During the last 50 years the population has increased 100 per cent and the number of public houses 25 per cent.

## BUSY DAY IN POLICE COURT

TWO MARRIED WOMEN ARRESTED FOR LOITERING NEAR PRESBYTERIAN CHURCH.

Saloon Keeper Fined for Keeping Open House Sunday—South Side Fight—Other Cases.

A large number of minor police court cases were disposed of Monday morning when the regular session opened. The most important case brought to Mayor McCleery's attention was a big fight which took place in the Union case, on the south side, Saturday night. Fred Durham, Ray Kidwell, a man named Chapman and another who was not caught in the policemen's dragnet, were mixed up in the fracas, and Kidwell, Durham a man named Vincent were arraigned before the mayor on a charge of fighting. They entered a plea of guilty and were fined \$5 and costs.

## Saloon Open Sunday.

J. W. Allen, a West Newark saloonist, was ordered in for failing to observe the Sunday closing law. He pleaded guilty to the charge and was given the limit, \$75 and costs. He pleaded so earnestly for leniency that the matter was reconsidered and he was fined \$25 and costs. He also paid up \$13 due on another fine assessed several months ago.

## Sent to Stone Pile.

Fred Young, who was found asleep on the tank of a B. and O. passenger engine Saturday morning, was fined \$5 and costs and sent to the stone pile.

## MARRIED WOMEN ARRESTED.

Two married women, living in East Newark, whose husbands are well known in the city, were arrested by Officer Swank, who was doing plain clothes duty, Saturday night. The women were loitering in front of the Second Presbyterian church at Second and Church streets, talking to two men. The officers have had instructions to arrest all men and women loitering in that neighborhood and Officer Swank was detailed to do plain clothes duty there Saturday night.

The first victims were let off easily. The mayor kindly consented to hold a hearing Sunday night and fined the women \$2 and costs and agreed not to disclose their names this time. The next offenders will get a public hearing and their names will be made public. Both the women Saturday night gave fictitious names.

Fred Secord was arrested on an affidavit charging him with stealing two brass side rods from an engine at the B. and O. shops. The affidavit was signed by I. H. Andrews. Secord pleaded guilty and was fined \$10 and costs and sent to jail for thirty days.

## Chief Sheridan's Vacation.

Chief of Police James S. Sheridan is off on his vacation. His spell of rest commenced Sunday and Captain Robert S. Bell was on duty in his place. The chief will spend part of his time at Buckeye Lake.

## Revolver Returned.

A Hungarian was arrested on July 4 for discharging firearms in the city limits, called on Mayor McCleery Saturday and asked for his revolver. The weapon was confiscated at the time of his arrest. The man stated that he was about to return to his native country and wanted to take the weapon with him. The gun was returned.

## GRANVILLE MAN GETS POSITION

Milwaukee, Aug. 6.—Karl C. Burrer of Granville, O., who has done considerable work in the post graduate department at the University of Wisconsin, has been appointed first assistant in physics at the university, and may be promoted to an instructorship within a year. The Ohioan will have general charge of the laboratory work and will begin his new duties in September.

The Missouri Pacific Railway Co., St. Louis, Iron Mountain & Southern Railway Co. One fare for the round trip to San Francisco and Los Angeles, California—The Missouri Pacific Railway and Iron Mountain Route are offering the very low rate of one fare for the round trip from St. Louis to San Francisco and Los Angeles, Cal. Tickets to be sold daily from Sept. 2 to 14, 1906; final return limit of Oct. 31. Liberal stopovers on both going and return trip. Through standard and tourist sleeping car service between St. Louis and California.

For particulars call on or address A. A. Gallagher, D. P. A., 119 Walnut street, Cincinnati, O.

Benjamin Jeans, who recently retired as guard on the London and Birkenhead express after 34 years of service, probably holds the world's record for travel. It amounts to more than 4,000,000 miles, or the equivalent of 100 times around the equator.

## S.S.S. KILLS THE GERMS OF SCROFULA

The laws of nature and heredity are fixed and invariable. Parents who are related by the ties of blood, or who have a consumptive tendency, or family blood taint, are sure to transmit it to their children in the form of Scrofula. Swollen glands, brittle bones, weak eyes, hip disease, pale, waxy complexions, emaciated bodies, running sores and ulcers, and general weak constitutions are the principal ways in which the disease is manifested. Those who have inherited this blighting trouble may succeed in holding it in check during young, vigorous life: but after a spell of sickness, or when the system has begun to weaken and lose its natural vitality, the ravages of the disease will become manifest and sometimes run into Consumption. S. S. S. goes down into the circulation and forces out the scrofulous deposits, kills the germs and completely cures the disease. It changes the quality of the blood by removing all impurities and poisons and supplying this vital fluid with rich, health-sustaining qualities. S. S. S. is a purely vegetable medicine and is especially adapted to systems which have been weakened and poorly nourished by scrofulous blood. Literature on Scrofula and medical advice free.

## Blind Headache

"About a year ago," writes Mrs. Mattie Allen, of 1123 Broadway, Augusta, Ga., "I suffered with blind, sick headaches and backaches, and could get no relief until I tried

## WINE OF CARDUI Woman's Relief

I immediately commenced to improve, and now I feel like a new woman, and wish to recommend it to all sick women, for I know it will cure them, as it did me." Cardui is pure, medicinal extract of vegetable herbs, which relieves female pains, regulates female functions, tones up the organs to a proper state of health. Try it for your trouble. Every druggist sells it in \$1.00 bottles.

WRITE US FREELY and frankly, describing your symptoms. We will consider your case and give you free advice (in plain sealed envelope). Don't hesitate, but write today. Address: Ladies' Advisory Dept., The Chattanooga Medicine Co., Chattanooga, Tenn.

## TEXAS TRAGEDY.

Cold Springs, Tex., Aug. 6.—As a result of the election tragedy in which E. B. Adams, a candidate for tax assessor, and his brother, Sam Adams, were killed and several others wounded, the sheriff asked that rangers be sent here to prevent further bloodshed. C. L. Williamson, one of the participants in the shooting, who returned to his home at Shepard, is said to have heard a rumor that a brother of Robinson, alleged slayer of the Adams brothers, was looking for him. Alf Barnes stepped into the door of a saloon where Williamson was and was shot and seriously wounded by mistake for Robinson.

## CHARGES FOR OBITUARIES AND CARDS OF THANKS.

Readers will kindly take notice that there is a charge of 5 cents a line (6 words to the line) for all obituaries exceeding 15 lines (90 words). We print all obituaries less than 15 lines in length free of charge. Cards of thanks we charge 5 cents a line (6 words to the line). The minimum charge for card of thanks is 25 cents.

Hurbanch certainly has big furniture wagons, because they move very near every family in one load. 5-21dtd

## Train Memorial Services.

Chefoo, Aug. 6.—Memorial services for the late Rear Admiral Charles J. Train, commander in chief of the United States Asiatic fleet, who died here Aug. 4, were held on shore. Representatives of the United States, French and Chinese fleets attended. The body was then conveyed to the battleship Ohio, which left for Yokohama.

## Theatrical Manager Dead.

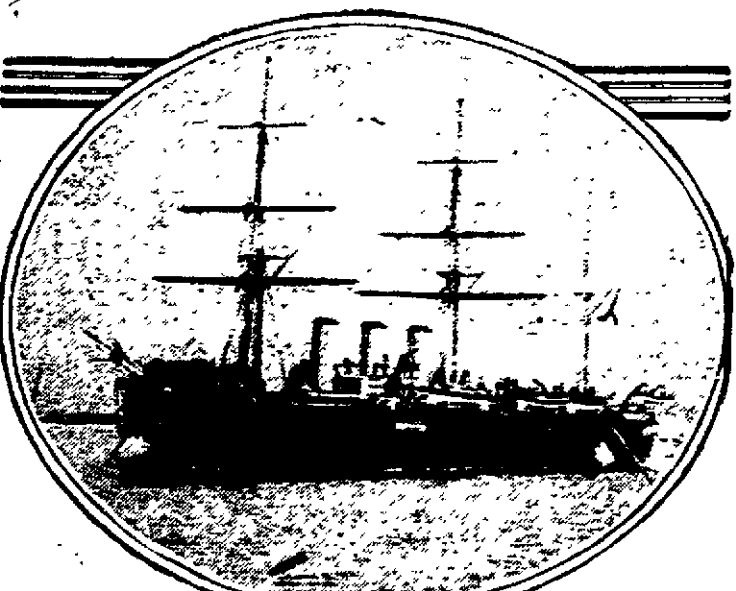

Old Orchard, Me., Aug. 6.—A. L. Grant of Lawrence, Mass., a member of the theatrical firm of Cahn & Grant, owners and lessees of theaters in various cities, died at his summer home at Grand Beach after a long illness.

The cotton land of the Argentine republic comprises more than 150,000,000 acres, but most of this vast territory is not at present available for production, owing to the sparse population and to the lack of economic means of transportation.

THE PAMVAT AZOVA

Startling news reached St. Petersburg Thursday afternoon to the effect that the crew of the armored cruiser Pamiat Azova had mutinied off the Estonian coast and were in full possession of the ship, which had sailed northward in the direction of the Finnish Gulf.

It was stated that the captain and four other officers of the Pamiat Azova were killed by the mutineers. The cruiser is of about 6000 tons displacement and was built in 1885.

## BARN IS STRUCK BY LIGHTNING

J. L. SULT PROSTRATED BY THE HEAT, BUT IS NOW BELIEVED OUT OF DANGER.

Democratic Clerk at Delaware—Howard and Miller Killed in Runaway—Nearby Town News.

Thornville, O., Aug. 6. — Lightning Sunday afternoon struck the barn on the farm of J. L. Sult, near this place, causing its destruction, with its contents, consisting of hay, wheat farm implements and vehicles. The total loss is about \$1500, partly covered by insurance. During the fire Mr. Sult was prostrated by the heat, but is now believed to be out of danger.

Killed in Runaway.  
Coshooton, Ohio, Aug. 6.—Howard Miller, aged 32 years, was instantly killed in a runaway at West Lafayette. Accompanied by George Noble, the two young men were driving a colt which became frightened and ran away.

Noble was thrown from the buggy and but slightly injured, while Miller, who remained in the rig, was kicked over the heart by the frightened animal, and was dead when help reached him.

Democrat Gets Office.  
Delaware, Aug. 6.—This morning for the first time in thirty years, the office of clerk of courts of Delaware county passed into Democratic control. Burt P. Benton, secretary to Congressman Ralph Cole, retired after two terms, and Edson H. Williams a Democrat, assumed the duties of the office.

Re-Recorder is Dead.  
Weoster, Aug. 6.—Jos. A. Schuch, aged 57, former county recorder, and one of the musicians of the city, died Saturday night. He had been ill for many weeks.

Mrs. Hugh Bowers, aged 56, a well known resident of this city, passed away Sunday.

## A \$3,000 FIRE AT CAMBRIDGE

Cambridge, O., Aug. 6.—One of the most disastrous fires that has occurred in Cambridge for some time, occurred here Sunday, when the south side flour mill, operated by Wiley & Son, took fire and burned to the ground, entailing a loss of about \$3,000. The origin of the fire is a mystery.

## WM. A. ASHBROOK

Democratic Candidate Will Speak at Big Picnic in Coshooton, September 8th.

Coshooton, Aug. 6.—Hon. William A. Ashbrook, Democratic candidate for Congress in this district, was here Saturday in the interest of his candidacy. He speaks encouragingly of the prospects for Democratic success at the polls this fall, and will make an active and thorough canvass of every county in the district.

A monster picnic, under the auspices of the New Bedford band, will be held at J. L. Cox's grove, near that village, on Saturday, Sept. 8, and Mr. Ashbrook has received and accepted an invitation to be present and deliver an address. The picnic will be a gala occasion for the people of that section, and a big crowd is sure to be in attendance.

## CHERRY VALLEY.

Mr. and Mrs. O. B. Young entertained at their suburban home on last Monday evening in honor of Miss Edna Long of Olean, N. Y. Those from Newark were Mr. and Mrs. Charles Whitehead, Mr. and Mrs. Will Flohr,

## BUSINESS MEN PROTEST AGAINST GAS DRILLING AT BUCKEYE LAKE

The following are the resolutions in full of the Columbus South Side Business and Improvement Association protesting against the proposed injury to, if not total destruction of, Buckeye Lake by the drilling on a large scale for gas and oil, the fight against which promises to be a warm one:

"Whereas, Boring is now going on for oil or gas, or both, on what is known as Leith's Island, on which is known as Buckeye Lake, being in the past of said lake lying in Fairfield county, Ohio, said party claiming title to and ownership of a part of said island under an alleged conveyance from the state of Ohio, and

"Whereas, We believe that the result of such use of said island will in the near future, be the pollution of the waters of said lake, and the consequent great injury to, if not destruction of, said lake, and that the people of Ohio for fishing and boating and as a place for recreation, and

## QUESTIONS ASKED AT EXAMINATION

POSTERS FOR PEDAGOGUES ARE PROPOSED AT THE HIGH SCHOOL BUILDING.

Questions Are Prepared Under Direction of State Commissioner of Public Schools.

The regular monthly examination of teachers before the Licking County Board of School Examiners was held on Saturday in the High School chapel. About fifty applicants for certificates in the elementary grades took the examination while the applicants for high school certificates were confined to one or two persons. Following is the list of questions submitted to the applicants for elementary school certificates. These questions were prepared under the direction of the State School Commissioner of public schools.

## WIFE ACCUSES HER HUSBAND

Mrs. Benjamin Brumelle Says Man Knocked Her Down and Tore Her Clothing Badly.

There was an exciting time on Vine street in the East End, Saturday evening which ended in the arrest of Benjamin Brumelle on a warrant issued by Justice Lee S. Lake at the instance of Brumelle's wife. Mrs. Brumelle in her affidavit stated that her husband came home, that he knocked her down and nearly tore the clothes from her person and that he threatened to kill her son, who is a step son of Brumelle. The warrant was placed in the hands of Constable Brooks for service. Brooks immediately went to the home of Brumelle and found the man sitting on the porch. As Brumelle is nearly twice the size of Brooks, weighing over two hundred pounds, it required considerable nerve on the part of the constable to arrest him, but he was equal to the occasion and succeeded in landing the man in the county jail.

When searched at the jail a package containing about half a pound of Paris green was found on his person. Brumelle was brought before Justice Lake and on the advice of his attorney, F. A. Bolton, entered a plea of not guilty. In default of \$300 bond he was sent to jail and will be given a hearing on Tuesday afternoon.

## SPEAKER CANNON'S SPEECH.

Danville, Ill., Aug. 6.—When Speaker Cannon of the house of representatives, is nominated for congress August 16, he will deliver a speech of acceptance in which he will at once plunge into a discussion of the labor question. He will accept the game of battle hurled by President Gompers of the American Federation of Labor. He will take up the 8-hour bill, the anti-injunction bill and educational proposition of immigration and naturalization bills. He will contend that the bill presented by labor is absurd in its provisions.

## SPEECH MAKING AT BRYAN MEETING

New York, Aug. 6.—The speech-making program for the Madison Square Garden reception to William J. Bryan, August 30, has been made out. Henry W. Walker will open the meeting and introduce Governor Folk of Missouri, who in turn will introduce Mayor Tom L. Johnson of Cleveland as presiding officer. The two formal speeches will be made by Augustus Thomas, playwright, and Mr. Bryan, who will also address an overflow meeting in Madison Square.

## QUESTIONS ASKED AT EXAMINATION

POSTERS FOR PEDAGOGUES ARE PROPOSED AT THE HIGH SCHOOL BUILDING.

Questions Are Prepared Under Direction of State Commissioner of Public Schools.

The regular monthly examination of teachers before the Licking County Board of School Examiners was held on Saturday in the High School chapel. About fifty applicants for certificates in the elementary grades took the examination while the applicants for high school certificates were confined to one or two persons. Following is the list of questions submitted to the applicants for elementary school certificates. These questions were prepared under the direction of the State School Commissioner of public schools.

## THEORY AND PRACTICE.

1. Distinguish between physical and mental facts.
2. What was the Socratic method of instruction? Can its principle be properly employed by present day teachers?
3. State and illustrate the influence of the will upon attention.
4. What do you consider the ideal situation with reference to light in the school room? Heat?
5. Explain the difference between the analytic and synthetic methods of teaching.
6. Who originated the kindergarten? What is the object and nature of kindergarten instruction?
7. When would you first introduce the pupil to fractions? What method of instruction would you employ?
8. What value do you place upon mental arithmetic? Why?
9. What is the minimum length of the school year in Ohio?
10. Make a list of five pedagogical works that you would recommend to a prospective teacher.

## GRAMMAR.

The burden put upon the President by persistent office-seekers, and by members of congress striving to reward their friends, in the effort to secure nominations, is almost past mortal endurance, and undoubtedly conflicts with the higher duties he owes to the whole people, and deprives him of much of the opportunity he should have to consider the weighty matters of general concern. Nor is it the least cause of much interested dissatisfaction and unjust criticism, — Coleman's "Constitution and Its Framers."

The first seven questions refer to the selection given above.

1. Select all the principal clauses.
- Classify all of the subordinate clauses as adjective, objective or adverbial.
3. Dispose of three infinitives.
4. Compare persistent, higher, whole, much and least.
5. Parse a participle; a verb in the potential mood; an adverb of degree.
6. Give the construction of past, in and endurance.
7. What is the mood and tense of should have? Complete its conjugation in the same tense.
8. Write a sentence containing an appositive clause; but used as an adverb; an independent construction with a participle.

## ARITHMETIC.

1. If I sell  $\frac{1}{2}$  of an article for as much as  $\frac{3}{4}$  of it cost me, what per cent do I gain? Analyze.
2. A bankrupt owes \$4500; his assets are \$1200. What sum will a creditor receive whose claim is \$360?
3. James Wilson bought 500 shares of Adams Express stock, at 105 $\frac{1}{2}$ ¢, and paid 1 $\frac{1}{2}$ ¢ brokerage; what is the rate of income on his investment per annum if the annual dividend is 8 $\frac{1}{2}$ ¢?
4. Define annuity, reciprocal, and ratio.
5. What difference in longitude corresponds to an hour's variation in time? Write and work a problem whose solution involves this principle.
6. A real estate agent purchases one section of a township; he desires to improve the property by running a roadway through the middle of the section. If the roadway is 44 feet in width, how many acres of the section will it occupy?
7. What is the value of a stick of timber 24 inches long, the larger end being 15 inches square and the lesser end 6 inches square, at 28 cents a cubic foot?
8. Extract the square root of 2 to four decimal places.
9. A man obtained an insurance on his house for  $\frac{3}{4}$  of its value, at 11 $\frac{1}{2}$ ¢ annually. After paying 5 premiums, the house was destroyed by fire, in consequence of which he suffered a loss (including premiums paid), of \$294. What was the value of the house?
10. Give the value of five of the following in American cents, shilling, franc, eagle, mark, mill, guinea.

## WRITING.

In this branch examiners will grade the manuscript in orthography.

## ORTHOGRAPHY.

1. Give the meaning of each of the following prefixes: equi, ante, anti,

ob, and peri. Write words illustrating each of the following suffixes: eous, tude, ess, ive, and ism.

2. Indicate the correct pronunciation of the following words: pronouncement, hypocrit, truculent, tepid, satire, extol.

3. Distinguish in meaning between assure and guarantee; habit and custom; veracity and veracity; antagonist and opponent.

4. Give three synonyms of effective; four antonyms of cowardly; two plural forms of index; a homonym of air.

5. Define compound word; root word; derivative word.

These words are to be pronounced by the examiner: privilege, adjust, enforceable, emphasize; linear, obliged, technical, liquefied; effervesce, changeable, verbally, sacrilegious; hereditarily, indorsement, accommodation, interim; rhinoceros, assessor, fallacies, sopranos; midge, homeopathy, Antioch, beehive, coppers.

## PHYSIOLOGY.

1. How would you teach the composition of the bones?
2. Give the physical properties of blood. What changes take place when blood coagulates?
3. State the function of the pericardium, the pleura and the salivary glands.
4. Discuss the relative nutritive value of beef, pork and lamb; of tea, chocolate and coffee.
5. Give the function of each of the following in connection with the nervous system: cerebellum, pia mater, trigeminal nerves.
6. What are the organs of speech? Upon what does the pitch of the voice depend?
7. Describe the structure of the voluntary muscles.
8. What is the effect of alcohol upon muscular tissue?
9. Discuss the relative value of cotton and woolen clothing as protection against heat and cold.
10. When professional assistance is not at hand, what is the best course to pursue in cases of fainting; drowning?

1. Discuss the Canterbury Tales, the Fable for Critics or the Idylls of the King, touching on the author; plan of the work; place in literature.
2. Why are Washington Irving's writings specially suited to classroom study?
3. With what American historians are you familiar? What do you consider the best comprehensive history of the United States? Why?
4. Give the name of one poem written by each of the following: William Cullen Bryant, Robert Burns, Lord Byron, Henry Wadsworth Longfellow, Alexander Pope, an American poetess.
5. Compare any two of the poets mentioned in the previous question.
6. Write briefly upon American humorists.
7. What was Lowell's purpose in writing the Vision of Sir Launfal? Holmes's purpose in writing Old Ironsides?
8. Contrast or compare Hawthorne and Poe.
9. Make a short list of Classics for Children.
10. Upon what production does the fame of Harriet Beecher Stowe rest? Julia Ward Howe?

## UNITED STATES HISTORY INCLUDING CIVIL GOVERNMENT.

1. What was the condition of slavery in the Colonies at the time of the framing of the Constitution? What has the Constitution to say with regard to the importation of slaves?
2. What territorial dispute was the cause of the French and Indian War? How did the treaty which settled this war affect Spanish possessions in America?
3. Discuss education in the Colonies.
4. What arrangement was made in regard to the debts incurred by the several states in the prosecution of the Revolutionary War?
5. What caused President Monroe to proclaim the Monroe Doctrine?
6. Describe briefly the personality of Andrew Jackson.
7. Discuss the Panic of 1837 or the Presidential Campaign of 1844.
8. Mention five generals of the Civil War and a battle in which each fought.
9. Give the leading events of the administration of Benjamin Harrison.
10. Why are the following battle-ships mentioned in United States history: Constitution, Maine, Alabama?

## GEOGRAPHY.

1. What determines the width of the zones?
2. Account for the luxuriant vegetation in the Amazon valley; for the arid condition of Lower California.
3. Name one state in the United States and one foreign country noted for the production of each of the following: sugar, salt, copper, cotton, beet sugar, and wool.
4. Define and illustrate: estuary, pampas, crater.
5. With regard to the following rivers state source, direction and outlet: Wabash, Orinoco, Ganges, Red River of the North, Rhone.
6. Locate three centers of the meat packing industry in the United States.
7. Under the control of what government is each of the cities mentioned below: Melbourne, Manila, Hongkong, Pagan, Rio de Janeiro.
8. Discuss the relative natural advantages of St. Paul and Pittsburgh as commercial centers.
9. Describe the mountain ranges of Spain.
10. Name six counties of Ohio and

## AT BLACK HAND

Annual Reunion of Soldiers Will be Held Thursday, August 16—The Speakers.

Great arrangements are being made for the big reunion of soldiers and sailors of Licking and adjoining counties, to be held at Black Hand on Thursday, August 16, and it is expected that the reunion will be the largest attended of any held in recent years. The following speakers who have been announced to deliver addresses on this occasion have signified their intention of being present: Governor Andrew L. Harris, Hon. M. L. Smyser, Wooster; Col. W. L. Curry, Columbus; Attorney Fred C. Reeder, Columbus; Attorney A. J. Andrews, Zanesville; Rev. J. W. Cale, Lore City; Rev. G. B. Henderson, Nashport; Miss Mellie Sheridan, Somerset; General P. H. Sheridan, Somerset; Capt. John A. Evans, Franksville; Judge E. M. P. Brister, S. M. Hunter, C. W. Seward, J. D. Jones, W. A. Irvine, Attorney A. A. Stasel, George Hamilton, and M. R. Scott of Newark. The Old Guard, uniformed and armed, accompanied by the Veteran Drum Corps of Columbus, will also attend.

## GRUBB GIVES BAIL AND IS RELEASED

Herman Grubb, the milk wagon driver who was arrested Saturday afternoon on the charge of embezzling \$150 from the J. W. Shaw dairy, gave bond Saturday night in the sum of \$500 and was released pending his hearing before Justice Nash next Friday at 9 a. m.

## JUDGE JOHN GILL IS SERIOUSLY ILL

He Has a Complication of Stomach and Heart Trouble.

During the last four months Judge John S. Gill, of 990 Bryden Road, Columbus, has been confined to his bed with a serious complication of stomach and heart trouble, and his condition is considered very serious. Judge Gill has been a resident and a practitioner at the Franklin county bar for the past eight years, having moved to Columbus from Delaware county, where he served five years on the common pleas bench. Besides being a member of the Franklin county bar association, in which he has always taken exceptional interest, he is a prominent soldier and is well known in G. A. R. circles. Judge Gill has many friends in Newark. He held court in this city at the time he was judged in the Licking-Knox-Deleware district. During the period of his illness, and more especially during the last several weeks, his condition has been at times very serious. On last Sunday he had recovered consciousness and was able to sit up for a short time.

## DENATURED ALCOHOL

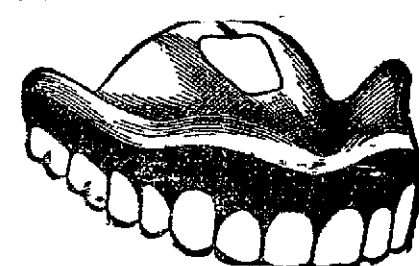

Washington, Aug. 6. — In view of the recent law of congress permitting the use of alcohol in the arts and industries free of tax, the bureau of manufactures of the department of commerce and labor collected a number of reports of United States consulates on the denaturing process, from which it appears that a similar law is in operation in Italy, France, Germany, Cuba, Belgium and other countries. So imperfect does the French government regard the methods in use for rendering alcohol unfit for consumption or of utilizing it as an illuminant that prizes have been offered to the person offering the most advantageous idea as on the subject. Nevertheless the reports recognize the possibilities of denaturing alcohol based on the trials already given it abroad.

In Java the planting of indigo is steadily decreasing by reason of the great increase in production of the synthetic article. Much of the land on which indigo has heretofore been cultivated has now been turned into sugar plantations.
